

Motzoid India Launches AI-Powered EdTech Platform "LearningRO" for Students of All Ages

LEARNINGRO

Leicester, Leicestershire Apr 23, 2025 ([IssueWire.com](https://www.IssueWire.com)) - Motzoid India is proud to announce the official launch of [LearningRO](#), a cutting-edge AI-integrated educational platform designed to revolutionize learning and revision for students as young as 5, with no upper age limit. Founded by **Dhumik Pravin**, a young visionary entrepreneur and digital creator, LearningRO combines the power of artificial intelligence with UK-based academic content to make learning smarter, faster, and better.

Launched under the name *LearningRO* in January 2025, with "RO" symbolizing its intelligent, robot-powered learning approach.

What Makes LearningRO Different?

LearningRO offers a personalized, AI-driven educational experience that supports students across all key subjects, including Maths, English, and Science, particularly aligned with **GCSE and A-Level** curricula. Key features include:

- **Xpert AI Tutor** – A smart assistant that helps students understand complex concepts with step-by-step guidance (but not direct answers) to support real learning.
- **Interactive Quizzes & Games** – From fun drag-and-drop games for early learners to exam-level questions for older students.
- **Personalized Dashboard** – Learners get tailored course suggestions based on their interests, year group, and upcoming exams.
- **Accessibility Tools** – Including text-to-speech and large text for students with visual or hearing impairments.
- **Cheat Prevention Mode** – During quizzes, AI assistance is restricted to encourage honest self-assessment.

Founder's Vision

"LearningRO is not just another learning platform—it's a movement to make education more accessible, personalized, and interactive for everyone," said **Dhumik Pravin**, founder of Motzoid India. "Our mission is simple: AI-powered learning for everyone, smarter, faster, better."
