

Music Director SK Embarks on Ambitious 100 Original Songs Project in 2025

Karachi, Sind Apr 7, 2025 ([IssueWire.com](https://www.issuewire.com)) - Music Director SK Embarks on Ambitious 100 Original Songs Project in 2025

Renowned Pakistani music director Salman Khan, known professionally as SK, has officially announced a groundbreaking musical journey for 2025 — a bold initiative to release **100 original songs in just 50 days**.

With over eight years of experience in the television industry and a powerful track record of successful OSTs and indie tracks, SK continues to break boundaries. His latest creative mission highlights his commitment to pushing artistic limits while remaining deeply connected to emotion-driven songwriting.

The journey began in March with the release of several impactful songs, including:

First Kiss
A World Without You
Ache
Lamb of Love
Moon Light

Speaking about the project, SK shared:

"I wanted to challenge myself emotionally and creatively — to see how deeply I could dig into the human experience and translate that into music. These 100 songs are not just tracks; they're stories, confessions, dreams, and echoes of love and pain."

Upcoming tracks include titles like **Heartbreak Echo**, **Tearful Whisper**, **Always You**, **Forever With You**, and **Burn For You**. Each release promises a unique sonic palette and heartfelt lyrics that explore themes of heartbreak, longing, introspection, and resilience.

Distributed globally via **Believe Music**, this ambitious project positions SK as one of the most prolific South Asian music creators of the year. His songs continue to resonate with listeners across Pakistan, India, the UK, and beyond — creating a growing international fanbase that appreciates depth and authenticity.

About SK

Salman Khan, aka SK, is a seasoned music director and composer with notable work in Pakistani drama soundtracks and independent releases. His emotionally charged music combines Eastern melodies with modern sound design, offering a soulful experience that connects deeply with listeners.
