

Paige Lepp Launches Innovative Dermatology Practice to Address Patient Needs

On The Spot Dermatology Offers Quick, Cost-Effective Care for Non-Emergent Skin Concerns

New York City, New York Apr 17, 2025 ([Issuewire.com](https://www.issuewire.com)) - Paige Lepp, a board-certified Family Nurse Practitioner with a wealth of experience in both dermatology and emergency medicine, is proud to announce the opening of On The Spot Dermatology. This new practice aims to provide immediate,

accessible, and cost-effective solutions for patients with less-complex skin concerns, meeting a growing demand for quick-care dermatology services.

Paige holds a Bachelor's degree in Nursing from Indiana University Bloomington and a Master's degree in Nursing as an Advanced Practice Nurse from North Park University. She is an active member of several professional organizations, including the American Nursing Credentialing Center and the Illinois Society of Dermatology Physician Assistants, among others.

With eight years of experience in medical and cosmetic dermatology, as well as emergency medicine, Paige recognized a significant gap in the market for patients who need timely care but do not require emergency intervention. "I have seen firsthand how frustrating it can be for patients to wait weeks or even months for a dermatology appointment," said Lepp. "At On The Spot Dermatology, we are dedicated to addressing patients' concerns immediately, allowing them to receive the care they need without unnecessary delays."

Before establishing her practice, Paige honed her skills as a Nurse Practitioner at a family dermatology office, working closely with both adults and children. This experience fueled her passion for dermatology and inspired her to create a space where patients can feel comfortable discussing their skin issues. "Building relationships with my patients and ensuring they feel heard is a top priority for me," she added. "I want each person to know they are receiving the time and attention they deserve."

In addition to her professional accomplishments, Paige is a dedicated family woman, married with three young children. When not caring for her patients, she enjoys spending quality time with her family, exercising, organizing, and decorating her home.
