Roanoke, Virginia Apr 28, 2025 (IssueWire.com) - Pro-line® Trailers Launches Complimentary “FTB” Inspection Program to Keep Customers Safe and Road-Ready

Pro-line Trailers is proud to announce the launch of its brand-new FTB Service (Front-To-Back

Inspection), a complimentary safety and maintenance evaluation available to all trailer owners. This industry-first program reinforces Pro-line's commitment to customer safety and top-tier service by ensuring every trailer is thoroughly checked, from coupler to taillights.

The FTB Inspection is a no-cost way for Pro-line Trailers to help protect lives and property by making sure every trailer leaving Pro-line is safe, functional, and road-ready.

The FTB Inspection includes a comprehensive assessment of key trailer components:

- Coupler, safety chains, wiring (4-way/7-way)
- Breakaway system and battery
- Axles, bearings, brakes, and seals
- Tires and wheels
- Exterior lights and roof (if applicable)
- Floor integrity, welds, and structural components
- Door and ramp operation (if applicable)
- And more

At the conclusion of the inspection, customers receive a Trailer Health Report detailing the overall condition of their unit and any service recommendations. Transparent menu pricing accompanies the report, allowing customers to select the services they want, with bundled discounts for multiple repairs.

This is more than just an inspection; it's a way to help customers make informed decisions and keep their equipment in top condition, especially for those hauling valuable cargo or traveling long distances.

The FTB Service is now available at Pro-line Trailer's Rocky Mount location, with no appointment necessary for basic drop-off. To learn more or to schedule your Front-To-Back Inspection, call 540.334.4182 or visit our [website](#).
