

Progressive Infotech Unveils Productized VAPT Service: A Game-Changer in Cybersecurity

VAPT: From Service to Solution – A Product You Can Trust

Noida, Uttar Pradesh Apr 22, 2025 ([Issuewire.com](https://www.issuewire.com)) - Progressive Infotech, a leading IT Managed Services provider, today announced the official launch of its **Vulnerability Assessment and Penetration Testing (VAPT)** offering as a fully productized solution. With a focus on **price transparency, compliance readiness, and enterprise-grade protection**, the new VAPT product aims to simplify cybersecurity decision-making for businesses of all sizes.

“Businesses today are tired of vague scopes, hidden costs, and overcomplicated cybersecurity engagements. We identified a strong need to simplify how organizations approach VAPT—by making it structured, predictable, and fully transparent. This productized model is not just about pricing—it’s about giving our customers control, speed, and confidence in securing their digital assets,” said Mr. Prateek Garg, Founder & MD, Progressive Infotech.

Key Highlights of the VAPT Product:

- **Transparent, asset-based pricing** – No hidden costs, complete clarity.
- **ISO-certified cybersecurity professionals** – Assuring quality and compliance.
- **Scalable packages** – Designed for SMEs to large enterprises.
- **Fast turnaround** – Delivered with speed, precision, and impact.

Whether you're gearing up for a compliance audit, closing critical security gaps, or seeking a no-surprise approach to cyber risk management—**Progressive's productized VAPT solution is built to deliver.** With predefined scopes, upfront pricing, and expert-driven execution, it removes the guesswork from cybersecurity and gives your team what they need most: **speed, control, and confidence to act.**

Availability: The VAPT product is now available for consultation and purchase via Progressive Infotech's website - [Productized VAPT Services](#).
