

Reality Tour® Invites Colleges, Schools, and Communities to Champion Youth Drug Prevention

Atlanta, Georgia Apr 21, 2025 ([IssueWire.com](https://www.IssueWire.com)) - Reality Tour® Invites Colleges, Schools, and Communities to Champion Youth Drug Prevention

Reality Tour®, a powerful drug prevention program for youth and families, invites colleges, universities, schools, parents, and community leaders to a free virtual information session on April 29, 2025, at 7:00 PM EDT. This presentation will explore how diverse groups can unite to host Reality Tour®, fostering stronger families and communities. Not part of a college or school? You're warmly welcome—anyone passionate about preventing youth drug use can join.

Reality Tour® engages middle and high school students and their families through real-life scenarios, compelling storytelling, and community involvement, delivering a lasting message about the risks of substance use. The program sparks meaningful family conversations, strengthens youth resistance to peer pressure, and builds deeper ties between families and their communities, making it a vital tool for prevention.

Colleges, schools, and community organizations are uniquely positioned to lead this effort. As trusted hubs, they can bring Reality Tour® to local youth, amplifying its impact. This session will share how these groups can collaborate to host the program, discuss its transformative outcomes, and highlight the urgent need for prevention strategies. Whether you're an educator, parent, or community advocate, you'll discover ways to make a difference.

Join us to learn how your voice, leadership, or organization can help shape a stronger, more connected response to youth drug prevention.
