

Savvyherb Secures \$25K in Microsoft Azure Credits to Advance its AI and Web3 Platform for Psychoactive Plant Medicine

Proud to partner with
Microsoft for Startups

New York City, New York Apr 16, 2025 ([Issuewire.com](https://www.issuewire.com)) - Savvyherb, a pioneering platform at the intersection of AI, Web3, and psychoactive plant medicine, has been awarded \$25,000 in Microsoft Azure credits through the Microsoft for Startups program. This funding will accelerate Savvyherb's technological development and enhance its AI-driven features.

Savvyherb is developing a comprehensive ecosystem that connects users with verified experts, rewards content creators, and addresses the information gap in the rapidly expanding field of psychoactive plant medicine.

With support from Microsoft for Startups, Savvyherb will scale its infrastructure and leverage advanced Azure AI services. Recent platform enhancements include:

- A Jobs board linking professionals to career opportunities in the plant medicine sector (savvyherb.com/jobs)
- Enhanced Channels fostering deeper engagement with thought leaders (savvyherb.com/companies, savvyherb.com/people)

"We're thrilled to receive this support from Microsoft for Startups," said Denis Pinsky, Co-founder of Savvyherb. "These resources will strengthen our AI capabilities, improve scalability, and help us build a community-driven hub for psychoactive plant medicine."

About Savvyherb

Savvyherb is an AI and Web3-powered platform dedicated to psychoactive plant medicine. It connects users with verified experts, incentivizes quality content, and addresses fragmented information in this

emerging field. Visit savvyherb.com for more details.

About Microsoft for Startups

Microsoft for Startups is a global program empowering startups with cloud credits, cutting-edge tools, and expert guidance to drive growth and innovation.
