

Shopler Launches App to Simplify B2B Food Packaging Orders for UK Takeaways, Restaurants and Caterers

The new Shopler app streamlines how UK businesses order food packaging, offering fast reordering, live stock updates, and exclusive deals on foil containers, takeaway boxes, and more—perfect for busy restaurants and catering services.

London, United Kingdom Apr 10, 2025 ([Issuewire.com](https://www.issuewire.com)) - Shopler App Revolutionises B2B Food Packaging Orders Across the UK

Founded in 2017, Shopler has grown into one of the UK's leading online wholesale suppliers of food packaging, offering over 1,000 SKUs tailored for restaurants, takeaways, cafés, and catering services. Now, the company is making business even easier with the launch of its brand-new mobile app—created specifically to simplify the way businesses order and manage their packaging supplies.

Designed for speed and ease, the Shopler app enables business owners to quickly reorder their essentials, view live stock updates, and access app-only promotions. It's available now for both [Android](#) and [iOS](#), helping thousands of food service operators save time and stay stocked.

For businesses looking to browse and compare products, Shopler's dedicated [B2B food packaging portal](#) provides a streamlined online shopping experience. From foil containers and paper bags to microwaveable trays and eco-friendly packaging, Shopler is a trusted destination for quality and value.

The company remains committed to sustainability, focusing on affordable, eco-friendly and biodegradable alternatives to traditional packaging. One of the most popular solutions today is the paper take-out bowl, now widely used as a fashionable, practical, and greener replacement for plastic containers.

Shopler also continues to see growing demand for its [disposable takeaway cups](#), including cups and lids from trusted names such as [Go Pak](#). With hot drink packaging becoming an everyday essential for cafés and takeaway services, the company ensures high-quality options are always available at wholesale prices.

As part of its sustainable approach, Shopler also supports the use of recyclable plastic packaging made in the UK. Through its [Satco Plastics](#) collection, customers can access high-quality plastic food containers manufactured domestically with recycling in mind, offering a more responsible alternative without compromising performance.
