

## Space Inventive Expands to the US with Verified Google Listing and Strategic NY Partnership

The India-based digital transformation company takes a significant step forward in global growth through US presence and a collaborative venture with GrowQ360.

**Hyderabad, Telangana Jan 21, 2026 ([IssueWire.com](https://www.issuewire.com))** - Space Inventive, a fast-growing digital innovation and AI solutions company headquartered in Hyderabad, India, has officially expanded its global footprint with a verified **Google Business Profile in the United States**, enhancing visibility and accessibility in North American markets.

This milestone comes alongside a **strategic partnership with GrowQ360**, a New York-based technology growth agency, aimed at amplifying outreach efforts and solidifying Space Inventive's presence in the region.

*"This is more than geographic expansion — it's about planting seeds for deep, collaborative innovation with partners and clients across borders,"* said a spokesperson from Space Inventive. *"We're excited to build meaningful connections, deliver tailored solutions, and support organizations in Life Sciences, Healthcare, HR Tech, and beyond."*

Space Inventive specializes in:

- **AI-powered platforms** like **Talliant** (HR automation) and **Sharkvision** (data analytics)

- **Product development** and **digital engineering**
- **Creative UI/UX** and **data-driven marketing strategies**

With verified visibility in the US, and a strategic partner on-ground, the company is well-positioned to bring its **cost-effective, scalable, and innovation-led solutions** to the global stage.
