

Tahan Music Co. Debuts with Bold First Release: "Astronaut" — A Pro-Life Anthem

Nashville, Tennessee Apr 25, 2025 ([IssueWire.com](https://www.issuewire.com)) - A new sound is rising, and it's arriving with purpose. Today, *Tahan Music Co.* launches onto the music scene with its very first release: **"Astronaut"**, a powerful, thought-provoking single produced by Nashville producer **Ben Reno**. *Astronaut* is not just a debut—it's a declaration.

A stirring pro-life anthem wrapped in cinematic soundscapes and raw emotion, the song explores the fragility and beauty of life from the moment it begins. With lyrics that reach deep and melodies that soar higher, *Astronaut* gives voice to the voiceless through art that refuses to stay silent.

“This is exactly the kind of story Tahan Music Co. was created to tell,” says **Kristen Broughton**, founder, songwriter, and creative director of the label. “*Astronaut* speaks to the value of life in all its stages. It’s honest, it’s poetic, and it’s unapologetically real.”

Produced by **Ben Reno**, whose credits span numerous records and major-label artists, *Astronaut* pairs lush, atmospheric production with heartfelt vocal delivery that lifts the song beyond genre—landing somewhere between modern country, cinematic balladry, and soul-baring storytelling.

This release marks the official beginning of *Tahan Music Co.*, an independent label with a mission to elevate excellent music with purpose—stories that matter, sounds that stir up hope and bring healing to the listener.

"Astronaut" is available now for pre-order on Apple Music and Amazon Music and will be released on all major streaming platforms on May 19, 2025.
