Waco, Texas Apr 21, 2025 ([Issuewire.com](https://www.issuewire.com)) - Hailing from the heart of Texas, **Kent Centz** is a rising independent artist whose music blurs the lines between raw emotion and real-life experience. The artist is one of the most promising musicians on streaming services like SoundCloud, with a sound that is as real as it gets. Impressing his fan base, he has just released two brand new songs that make his discography even more enjoyable. Titled '[not like them](#)' and 'where the arrowheads are lying', both the tracks carry different vibes, and completely distinct compositions, and are on their way to becoming the most-streamed tracks in his discography.

Music is the biggest passion that finds its way, and **Kent Centz** is the biggest example of it. Being the owner of Kent Centz Construction LLC, he had been able to keep his artistic soul alive by making music even on his way to work. The [Texas rapper](#) mainly freestyles every song straight from the heart, which proves his natural talent and passion for music. Most of the time, there are no written lyrics; the artist just relies on raw emotions and honest thoughts. The brand-new tracks are created the same way, opening a window for the audience to connect with the musicians more intimately. The single 'not like them' focuses on the fundamental differences in society. Written beautifully, this track captures the attention from the very first beat. On the other hand, '[where the arrowheads are laying](#)' showcases a different side of the artist, focusing more on his creative choices.

Kent describes himself as a country boy, an empath, a whistleblower, and the chosen one. He takes

pride in living with purpose and speaking the truth, both in life and in music. His music is led by feelings that teach him things he did not even know he needed to hear. That same message often connects deeply with listeners, too. Listen to his new songs on **SoundCloud**, along with some previous releases, 'blacksheep', 'in the rain', 'when my gun pops', etc. Follow him on [Facebook](#) and [Instagram](#) for further updates.
