

A CPA's Life Unveiled: Edward Mendlowitz Shares Six Decades of Insight, Strategy, and Success in "Memoirs of a CPA"

Tomah, Wisconsin May 29, 2025 ([IssueWire.com](https://www.issuewire.com)) - In his book, "Memoirs of a CPA: The Growth, Development, and Rise of One of America's Most Successful CPAs", Edward Mendlowitz delivers an illuminating and deeply personal chronicle of what it takes to build and sustain a thriving accounting practice—offering valuable lessons not only for those in public accounting, but for entrepreneurs, business owners, and anyone navigating the evolving world of professional services.

With a career spanning over 60 years, Mendlowitz—named one of Forbes' Top 200 CPAs in America—pulls back the curtain on the real world of accounting. In a profession often shrouded in technical language and behind-the-scenes operations, this memoir provides a rare, accessible, and engaging narrative that reveals the business of being a CPA: client service, staff development, pricing strategies, leadership, and the ethics that drive success.

"This book was written to give back to my peers and provide guidance to those just beginning their careers," Mendlowitz explains. "It also serves to demystify what CPAs really do, not only for students and young professionals but also for clients and entrepreneurs."

In “Memoirs of a CPA”, Mendlowitz shares practical stories, lessons learned, and the blueprint behind growing a successful firm. The book highlights his journey from starting a practice to becoming a recognized authority in the field. Along the way, readers gain insight into business development, talent management, succession planning, and the mindset needed to adapt over decades of economic and technological change.

About the Author

Edward Mendlowitz, CPA, is a widely respected leader in the accounting profession. In addition to practicing for over six decades, he is the author of 32 influential books for accountants and business professionals. He has presented more than 350 continuing education programs, mentoring thousands of CPAs and sharing his vast experience with the wider business community. Known as the CPA that CPAs turn to for advice, Mendlowitz continues to serve as an inspiration for those committed to service, integrity, and professional excellence.

The inspiration behind writing this book was the desire to give back—to share what he have learned over 60 years in public accounting. Mendlowitz wanted to offer an honest, behind-the-scenes look at what CPAs actually do, both for those just starting out and for anyone curious about the profession. Admittedly, he also had a humorous hope that all 675,000 CPAs in America would buy the book and he’d make a fortune—though that part may still be in progress.
