Automated Bookings
across Southeast Asia

www.agencyauto.net

Chennai, Tamil Nadu May 26, 2025 (Issuewire.com) - AgencyAuto, a flagship travel technology platform by Infiniti Software Solutions, today announced a major operational milestone— In 7+ years **over 6.2 million travel bookings automated** for clients across Southeast Asia. The company's Corporate Booking Tool (CBT) and B2B automation suite have enabled travel agencies in the region to **scale rapidly, cut turnaround time, and enter new markets**—all without increasing overhead or manual effort.

This achievement reaffirms AgencyAuto's position as the **go-to automation platform for travel management companies (TMCs)** and **B2B-focused agencies** seeking to move away from fragmented, legacy systems.

Solving Industry Pain Points Through Automation

Manual booking workflows, lack of integration with LCCs, and disjointed agent processes remain top challenges for travel agencies today. AgencyAuto addresses these gaps with an all-in-one CBT and B2B system that automates everything from search to settlement.

Agencies using AgencyAuto in Southeast Asia have reported:

- **Up to 65% reduction** in turnaround time for both corporate and sub-agent bookings
- **30–40% increase** in booking volume within the first six months of implementation
- **50% reduction** in manual workload thanks to automated itineraries, real-time reporting, and centralized dashboards
- **Seamless expansion into multiple markets**, driven by the platform's multi-currency, multilingual, and white-label capabilities

Looking Ahead: Global Expansion and Agency Onboarding

With strong traction in Southeast Asia, AgencyAuto is now actively looking into **new markets across the Middle East, Europe, and Africa**. The company is inviting forward-looking TMCs, tour operators, and sub-agent networks to explore how automation can drive growth, reduce costs, and unlock scale—without increasing complexity.

About AgencyAuto

AgencyAuto is a next-generation automation platform tailored for travel management companies, tour operators, and B2B agencies. Designed by Infiniti Software Solutions, the [travel agency software](#) offers an integrated suite of tools including a Corporate Booking Tool (CBT), B2B portals, white-label modules, LCC integrations, and intelligent dashboards to streamline travel operations end-to-end.
