

## AzarielSmith LLC Makes Power Moves in 2025: SolariCoin, ExoticBikes, and Nationwide Expansion Billion-Dollar Vision

Azariel Smith, CEO of AzarielSmith LLC, Launches Multi-Industry Push with SolariCoin, ExoticBikes, and National Services Expansion

**Colorado Springs, Colorado May 23, 2025 ([IssueWire.com](https://www.issuewire.com))** - Azariel Smith, founder of AzarielSmith LLC, is making waves across multiple industries. From cryptocurrency to transportation, manufacturing, and media, Smith's empire is building with vision and velocity.

In 2024, AzarielSmith LLC acquired ExoticBikes LLC for \$24 million, shutting down its transport division to refocus on advanced, safer equipment manufacturing. Simultaneously, Smith launched SolariCoin (SLR) — a BEP-20 cryptocurrency designed to power legacy and community economics. The token is deployed on Binance Smart Chain and preparing for full public rollout.

His freight and logistics firm, NobleSpan Freight Group, continues to grow, while SolariCoin News and The Solari Ledger offer updates on blockchain, business, and faith-led impact under editor Ava Carter.

Smith is also launching a nationwide unarmed security company, with licensing and government contract positioning already underway. Meanwhile, his wife's hybrid brand, Tax & Meals by Kimberly Smith, brings affordable tax prep and meal support to homes with style and warmth.

All brands operate under SW Port Capital, with AzarielSmith LLC at the center as registered agent and driver of vision.

“I’m building more than companies,” Smith says. “I’m building an economy rooted in faith, family, and future generations.”

SolariCoin is currently available for private trades and will be made public once BscScan verification and liquidity are complete.
