

Car Concierge Pro Expands AiM Insurance to Include Home, Boat, Yacht & Jet Coverage, Aiming \$15M Savings by 2026

Scottsdale-based firm scales proven insurance negotiation solution, with a 25% savings-share model and a fast-growing client base across North America.

Product By Car Concierge Pro

Scottsdale, Arizona May 26, 2025 ([Issuewire.com](https://www.issuewire.com)) - Car Concierge Pro LLC, the Scottsdale-based luxury automotive and insurance negotiation company, today announced a major expansion of its flagship Auto Insurance Monitoring (AiM) solution. Initially focused on auto insurance, AiM now covers home, boat, yacht, and private jet insurance, positioning itself as a one-stop solution to reduce personal insurance costs without compromising coverage.

Since launching the AiM solution in September 2024, Car Concierge Pro has already helped over 700 clients across the U.S. and Canada, negotiating more than \$4.2 million across all services. With its expanded offerings, AiM will target \$10–\$15 million in client savings by 2026.

From a Car-Focused Innovation to a Comprehensive Insurance Solution

The AiM Insurance solution, accessible via [GetAiMInsurance.com](https://getaiminsurance.com), was initially introduced to disrupt how consumers manage auto insurance. Unlike brokers or agents with affiliations, AiM operates as an independent third-party negotiator working exclusively for the client. The platform's expanded scope now allows individuals and families to save across multiple high-value policies—all with no reduction in coverage quality.

Backed by 4 years of experience, AiM delivers concierge-style service, where every policy is reviewed,

analyzed, and negotiated by a dedicated expert.

A New, Transparent Pricing Model

AiM recently transitioned from its initial subscription model to a success-based pricing structure. Clients now pay 25% of the total negotiated savings, only after results are delivered. This ensures zero risk, no upfront payments, and a performance-driven approach that aligns incentives with client outcomes.

For example:

- If AiM negotiates \$2,400 in annual premium savings, the client pays only \$600, retaining \$1,800 in annual savings without reducing coverage.

“We built AiM on our promise to deliver unbiased, hassle-free savings,” said **Neel Mehta**, Co-founder and Chief Negotiator of AiM Insurance. “By expanding into home, boat, yacht, and jet insurance, we’re creating an integrated ecosystem that ensures the same coverage at the lowest possible cost—no more calls to multiple brokers, no hidden fees, just real savings.”

Fueling Growth with Trusted Talent

Car Concierge Pro has added three new seasoned negotiators and client specialists to the AiM Insurance team to support the growing demand. These hires bring deep domain expertise in the automotive and insurance sectors, enhancing AiM’s ability to tackle complex client requirements swiftly and effectively.

This boost in capacity enables AiM to offer:

- Faster turnaround times on savings analysis
- Dedicated support across multiple policy lines
- Scalable services for high-net-worth families and corporate clients

Leadership Backed by Results

The AiM initiative is led by:

- **Neel Mehta**, Co-founder and Chief Negotiator – a seasoned entrepreneur and client advocate with 12+ years of experience.
- **Shainit Agarwal**, Founding AiM member – driving strategy and insurance category expertise.
- **Bhavya Mehta**, co-founder of Technology and Growth, spearheads platform scalability and client experience.

Together, the leadership team has served high-profile individuals, business owners, and families across the country, and is now on track to help over 1,500 clients save millions in recurring insurance costs over the next 18 months.
