Noida, Uttar Pradesh Jun 22, 2025 (Issuewire.com) - Skywire Broadcast, a leading provider of professional audio-visual and broadcast solutions in India, has successfully completed the end-to-end setup of a fully operational [news channel setup](#) and studio for such as JK News and IND24 Bhopal,

NEWS World Bhopal Digiana media group, etc. The project included everything from technical planning and studio design to equipment installation, configuration, and staff training ensuring the channel is ready for 24x7 live news broadcasting.

With over a decade of experience in broadcast integration, Skywire Broadcast provided a turnkey solution that includes:

- Multi-camera studio setup with professional PTZ and broadcast cameras
- Video switching and mixing systems for live program control
- Real-time graphics and titling software
- Newsroom computer systems (NRCS) for efficient news production workflows
- Live streaming and satellite uplink integration
- Studio lighting, teleprompters, and audio mixing consoles
- Full system integration and testing

This project highlights Skywire's ability to handle complex broadcast infrastructure demands while delivering high reliability and technical excellence. From regional channels to national broadcasters, Skywire Broadcast has earned a reputation for delivering high-quality, ready-to-air broadcast setups on time and within budget.

"We are proud to have delivered another complete news studio solution, tailored to the client's editorial and technical requirements," said Avnish Singh, Founder & CEO of Skywire Broadcast. "Our focus is always on enabling our clients to go live with confidence and clarity."

The channel is now equipped to deliver real-time, HD-quality news broadcasts across television and digital platforms, marking a new era of efficient and modern journalism.
