

Dangote Group Partners with TECNO to Drive Digital Innovation and Community Empowerment Across Africa

The Dangote Group, Africa's foremost industrial conglomerate, is proud to announce a strategic partnership with leading global technology brand TECNO aimed at driving digital innovation and transforming the lives of millions across Sub-Saharan Africa

Lagos, Nigeria Jun 23, 2025 ([Issuewire.com](https://www.Issuewire.com)) - The Dangote Group, Africa's foremost industrial conglomerate, is proud to announce a strategic partnership with leading global technology brand TECNO, aimed at driving digital innovation and transforming the lives of millions across Sub-Saharan Africa.

With a shared vision of improving the quality of life for everyday Africans, this partnership marks a significant step forward in Dangote Group's mission to provide for the essential needs of Food and Shelter while embracing the power of technology to foster inclusive growth and sustainable development.

As a proudly African enterprise, Dangote Group has built a strong reputation for excellence in Cement Manufacturing, Sugar Milling and Refining, Salt Refining, Packaging Materials, and Port Operations. This collaboration with TECNO is a natural extension of Dangote's commitment to innovation and impact.

TECNO, a globally recognized AI-driven brand with a presence in over 70 countries, brings to the partnership its expertise in cutting-edge technology solutions and a robust ecosystem of AI-powered devices, including smartphones, wearables, laptops, and smart home products.

Through this partnership, Dangote Group and TECNO will jointly explore technology-driven solutions that can enhance operations, empower communities, and support digital transformation across key sectors. This includes initiatives to improve access to smart devices, support digital literacy, and integrate artificial intelligence into community-based development projects.

"This partnership with TECNO aligns with our vision of becoming a world-class enterprise that is passionate about enhancing the quality of life for our people," said a Dangote Group spokesperson. "By embracing technology and innovation, we can extend our impact even further, especially in areas where digital inclusion can create new opportunities."

The partnership will kick off with pilot projects in select communities, focusing on leveraging TECNO's AI capabilities to support local enterprises, education, and youth empowerment. The collaboration also opens doors for smart logistics, energy-efficient solutions, and enhanced communication across Dangote's vast network of operations.

As both companies continue to lead in their respective fields, this collaboration represents a powerful fusion of industrial excellence and technological advancement—designed to uplift, empower, and innovate for a better Africa.

TECNO is an innovative technology brand operating in over 70 markets across five continents. Committed to transforming digital experiences in emerging markets, TECNO offers a wide range of AI-powered devices and continues to inspire progress through its brand philosophy, Stop At Nothing.
