

Digicode Unveils White Paper on Intelligent AP Automation, Establishing New Standard in Accounts Payable for Enterprises

Dallas, Texas May 14, 2025 ([IssueWire.com](https://www.issuewire.com)) - Digicode, a global provider of intelligent software solutions, has released a new white paper titled [“The New Standard in Accounts Payable.”](https://www.mydigicode.com/insights/the-new-standard-in-accounts-payable/) showcasing in action its next-generation Intelligent AP Document Processing (IAPDP) platform. The document offers a comprehensive look at how automation and AI-driven document processing are redefining financial operations for mid-sized to large organizations.

The white paper explores the challenges of traditional AP workflows, such as delayed approvals, high error rates, and lack of visibility, and presents a compelling case for automation. It highlights IAPDP's robust capabilities, AI-driven invoice classification, automated three-way matching, and seamless integration with Microsoft Dynamics 365 Business Central.

Key Insights from the White Paper:

- **75% faster invoice processing** and **90% error reduction** in real-world client deployments
- **Automated three-way matching** and digital archiving for enhanced compliance and fraud prevention
- Seamless **integration with Microsoft Dynamics 365 Business Central**
- Significant **ROI, including 60%** cost savings and 85% increase in timely payments

“Our goal with this white paper is to provide finance leaders with a clear, actionable roadmap for transitioning from reactive, manual AP processes to intelligent, value-driven automation. Through IAPDP, organizations can significantly reduce operational costs, increase compliance, and elevate the strategic impact of their finance teams,” - **Dmytro Karaptan**, Head of ERP Solutions at Digicode.

IAPDP is particularly beneficial to industries such as finance, healthcare, logistics, and manufacturing, entities that manage large volumes of invoices and require strict audit compliance. The white paper further breaks down key triggers that prompt AP transformation, including ERP upgrades, audit pressures, and team capacity constraints.

Download the White Paper

“The New Standard in Accounts Payable” is available now and can be downloaded from Digicode's website: <https://www.mydigicode.com/insights/the-new-standard-in-accounts-payable/>. It serves as a practical guide for decision-makers seeking to elevate their AP operations through advanced automation.
