

Dr. Michael S. Lewis Recognized for Outstanding Contributions to Pathology and Patient Care

Veteran Pathologist at VA Greater Los Angeles Medical Center Cites Dedication, Mentorship, and Research as Keys to Success

New York City, New York May 22, 2025 ([Issuewire.com](https://www.issuewire.com)) - Dr. Michael S. Lewis, MD, FACP, a respected pathologist based in Los Angeles, continues to make a lasting impact on the medical field through his dedication to patient care, ongoing research, and commitment to education. A graduate of Boston University Medical School, Dr. Lewis brings decades of clinical experience and a strong focus on advancing diagnostic medicine. He is currently affiliated with the VA Greater Los Angeles Medical Center, where he plays a critical role in ensuring accurate diagnoses and promoting patient safety.

Dr. Lewis attributes his success to a lifelong dedication to the medical profession, a passion for improving patient outcomes, and the guidance of exceptional mentors. His career reflects a balance of clinical excellence and academic curiosity, supported by a foundation of extensive research and a commitment to continuing medical education. These values not only shape his work but also influence the next generation of medical professionals with whom he collaborates.

As an active member of professional societies, including the College of American Pathologists and the United States & Canadian Pathology Association, Dr. Lewis remains at the forefront of developments in his field. His involvement in these organizations underscores his commitment to advancing pathology as a discipline and ensuring that high standards of practice are maintained across the medical community.

Dr. Lewis is widely respected for his unwavering focus on quality care and his drive to make a difference every day. Through his work at the VA Greater Los Angeles Medical Center and his participation in national pathology organizations, he continues to contribute meaningfully to both patient health and the broader field of medical science.
