

Ecomax Solutions Wins MSME Global Platinum Business Excellence Award 2025 for Sustainability Product Innovation

The Pune-based cleantech company is honoured at Vigyan Bhawan, New Delhi, for its contributions to non-chemical water treatment and energy-efficient technologies.

Pune, Maharashtra May 9, 2025 ([Issuewire.com](https://www.issuewire.com)) - [Ecomax Solutions Pvt Ltd](https://www.ecomaxsolutions.com), a pioneering provider of sustainable industrial technologies, has been conferred the *MSME Global Platinum Business Excellence Award 2025* under the category of **Sustainability Product Innovation**. The award was presented by *Padma Shri Prof. G. D. Yadav* at a distinguished ceremony hosted at *Vigyan Bhawan, New Delhi*.

This recognition was conferred by the **MSME Chamber of Commerce & Industry of India**, with support from the **Ministry of MSME, Ministry of Science & Technology**, and **Ministry of Heavy Industries**, Government of India. The award honours exceptional contributions by Indian MSMEs towards innovation, efficiency, and sustainability.

Mr. *Mohan Chavan*, Founder and CEO of Ecomax Solutions, accepted the award on behalf of the company.

“Sustainability has been our north star since day one. This award is a recognition of our team’s relentless drive to deliver eco-efficient solutions for industrial operations,” said Mr. Chavan. “We are honoured and inspired to do even more in the field of sustainable engineering.”

Ecomax Solutions is known for its breakthrough innovations in [non-chemical water treatment](#), [automatic tube cleaning systems \(ATCS\)](#), and [cooling tower optimization](#). The company’s solutions have significantly helped industries reduce their carbon footprint, energy consumption, and water usage — aligning operational performance with global sustainability goals.

This award adds to Ecomax’s growing reputation as a **trusted sustainability partner** for industries seeking to transition towards greener, more cost-effective operations. With over 300 clients globally and more than 1,500 ATCS installations, Ecomax continues to scale its impact across sectors including power, manufacturing, steel, and chemicals.

About Ecomax Solutions Pvt Ltd

Ecomax Solutions is a leading Indian clean technology company delivering innovative engineering products that improve **energy efficiency**, **water conservation**, and **equipment performance** in industrial environments. Headquartered in Pune, India, Ecomax is driven by the mission to accelerate industrial sustainability through smart, scalable solutions.
