To enter, users must **share their AI-generated videos on YouTube or any major social media platform** using the hashtag **#CelebrateMothersDaywithEdimakor** and tag **@HitPawEdimakorOfficial**. Videos can include old photos brought to life, fun age-swap moments, or a simple slideshow that tells a family story. What matters most is sincerity and creativity.

Whether your tech-savvy or just starting out, Edimakor makes it easy to turn ideas into touching video tributes. With built-in features for editing, effects, and animation, anyone can create something meaningful in just a few clicks.

The company also reminded participants that it reserves the right to interpret the rules and final decisions regarding the event.
