

Excel Heaters Expands Global Reach with Innovative Industrial Heating Technologies

Mumbai, Maharashtra Jan 20, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Excel Heaters was founded in 1971. It is part of the Bharat Shah Group of Companies. Excel Heaters is a top maker and exporter of industrial heating solutions in India. With a well-established presence in over 45 countries, Excel Heaters announced its strategic global expansion to bring its innovative heating technologies to a broader market. With a commitment to enhancing industrial efficiency and sustainability, Excel Heaters is set to redefine standards in industrial heating across various sectors.

Excel Heaters has been at the forefront of providing advanced heating solutions, including immersion heaters, process heaters, and other specialized products, designed to optimize energy consumption while delivering unmatched performance. To date, the company has successfully supplied heaters for more than 125,000 machines across industries, including plastic and rubber, injection and blow molding, and various extruder applications. This expansion enables the company to serve new international markets, meeting the growing demand for reliable and efficient industrial heating technologies.

"We are thrilled to extend our reach and introduce our state-of-the-art heating solutions to new regions," said the owner of Excel Heaters. "Our mission is to empower industries with cutting-edge technologies that drive efficiency, reduce costs, and support sustainable operations."

The company's global strategy includes establishing partnerships with key distributors and enhancing its digital presence to streamline supply chain operations. Unlike previous reports, Excel Heaters is not currently investing in localized support but is instead focusing on building strong distribution networks to ensure global availability and service efficiency.
