

## Goddess Mane Oils Are Helping People Regrow Hair, Soothe Scalps, and Reclaim Confidence — Naturally

East Orange-based brand Maverick Homemade Goods launches handcrafted herbal oils designed to support hair growth and scalp healing for all — now available both online and in local health stores.

East Orange, New Jersey May 15, 2025 ([Issuewire.com](https://www.issuewire.com)) - *Maverick Homemade Goods*, a woman-owned small-batch wellness brand, announces the growing success of its signature herbal hair care products: **Goddess Mane Hair Food Oil** and **Goddess Mane Hot Growth Oil**. Crafted for all

genders, hair types, and scalp conditions, these products are helping people naturally restore length, moisture, and confidence — and are now available at **Olive May Natural Foods**, a trusted wellness store located at **516 Main Street in East Orange, NJ**.

Formulated with over 30 herbs including rosemary, fenugreek, horsetail, nettle, amla, and moringa — and infused in nourishing oils like castor, olive, and argan — Goddess Mane oils support hair regrowth, reduce shedding, relieve dry or itchy scalp, and promote overall scalp vitality. The **Hot Growth Oil** includes garlic oil for those needing deeper stimulation and faster results.

“These oils were born from my healing journey. I had to regrow my hair from the ground up — and I did it using herbs, not chemicals. Now I offer that same healing to anyone ready to take their power back,” says Nidja Fisher, founder of Maverick Homemade Goods.

Used and praised by men, women, and children, the Goddess Mane line continues to gain momentum thanks to word-of-mouth results:

“OMG!! The magic this product has done to my daughter and myself! I have seen growth and softer hair since I’ve been using it. I give this product a thumbs up and encourage all that want beautiful, luscious hair to purchase immediately!” – **Isaacah Bell**

“I really love this product for my hair. I used it as a hot oil treatment, conditioner, and daily moisturizer. I have already started seeing hair growth. You cannot beat the price!” – **Tammy Jamison**

“In just a few weeks, this exceeded my expectations and delivered incredible results.” – **(Sheldon)**

The **Hair Food Oil** is garlic-free and ideal for sensitive scalps or protective styles. The **Hot Growth Oil** is ideal for deep treatments and regrowth accelerators. Both are made-to-order in small batches in East Orange and can be purchased online or at:
