London, United Kingdom Jun 3, 2025 (Issuewire.com) - UK restaurants now have a smarter, more profitable way to go digital. **Gustosfera**, the global food-tech platform, has officially launched in the United Kingdom, enabling food businesses to launch fully branded e-commerce websites and mobile apps—without paying commissions to third-party delivery apps. For just **£0.45/hour**, restaurants get their own customer app, admin app, delivery app, and website—all under their brand name.

At a time when British restaurateurs are fighting rising costs, delivery app commissions, and a cost-of-living crunch, Gustosfera offers a simple and powerful solution: **own your tech, own your customers, and keep 100% of your profits.**

Escape the Commission Trap

In the UK, third-party platforms charge restaurants up to 35% per order. Gustosfera flips that model by offering a flat, flexible pricing structure, giving restaurants complete control over their digital storefronts. No commissions. No contracts. No hidden fees.

Everything You Need to Go Digital—Under Your Brand

For just £0.45/hour, Gustosfera provides:

- **Branded Customer App** – On Android, delivering a seamless, custom ordering experience for your customers.
- **Admin App** – Manage everything from pricing to promotions in real-time. Download from the **Samsung Galaxy Store** and the **Gustosfera Website**.
- **Delivery App** – Live order tracking and routing for your in-house delivery team.
- **Fully Branded Website** – Mobile-optimised and hosted on your own domain (or a Gustosfera subdomain like yourbrand.guskart.com), complete with integrated payments and checkout.

“Power to the Restaurant Owner”

Perna Kharbanda, Marketing Head of Gustosfera, explains:

"UK restaurants are fed up with losing control over their brand and margins. Gustosfera is here to change that. We make it simple and affordable for restaurants—whether you're in London, Birmingham, or Belfast—to go fully digital in 30 minutes without developers, contracts, or commissions."

She adds, *"You should own your customer data, your app, your revenue—and your future."*

Built for UK Restaurateurs of All Sizes

Gustosfera's platform supports:

- **Independent restaurants** wanting to cut costs and go direct-to-customer
- **Cafés and bakeries** that want loyalty features and brand identity
- **Ghost kitchens and food trucks** that need fast, mobile-first solutions
- **Fine-dining brands** expanding into delivery or takeaway

No Coding, No Waiting—Go Live in Minutes

Gustosfera is fully hosted, intuitive, and ready out of the box. Restaurateurs simply sign up, upload their menu, set their branding, and go live. Most go digital in under 30 minutes—no technical skills required.

The **Admin App**, available on the **Samsung Galaxy Store**, gives restaurant owners the power to:

- Track and fulfil orders
- Change prices and availability in real-time
- Launch time-based deals
- View customer behaviour and top-selling items

Support That Understands the UK Market

Gustosfera offers full onboarding, support team, and guidance tailored to British food businesses—from chip shops to curry houses to vegan cafés. Whether you're just starting out or managing a chain of 30 locations, Gustosfera scales with your ambition.

Why the UK Needs Gustosfera Now

- **No Commissions:** Keep every penny of your sale
- **No Contracts:** Pay-as-you-go subscription model
- **Brand Visibility:** You stay front and centre—not lost in a third-party app
- **Customer Data Ownership:** Build direct loyalty and marketing relationships
- **Built for Growth:** Use the same tech stack whether you're one location or one hundred

A Fast-Growing Global Movement

Early adopters across the UK, Spain, the Philippines, India, and the US are already reporting stronger brand recognition, increased profits, and more loyal customers.

"We moved away from third-party platforms and launched our own app using Gustosfera. In one month, our delivery profits grew by 25%," says one Birmingham-based restaurant owner.

Available Now—with Multi-Language Support Coming

Currently available in English, Gustosfera will soon launch in **Spanish, Korean, and French**, helping UK businesses reach multilingual audiences locally and globally.

Ready to Reclaim Your Restaurant?

Visit www.gustosfera.com to start your free trial today.

Restaurant owners can download the **Admin App** by searching "Gustosfera Restaurant Admin" on the **Samsung Galaxy Store**.
