

IFG US to Host Webinar on How Companies Can Cut Accounting Costs by Over 50% Without Losing Control

Join IFG US a high-impact, one-hour webinar

Chicago, Illinois May 23, 2025 ([IssueWire.com](https://www.issuewire.com)) - IFG US, a leading provider of outsourced financial services, is inviting finance professionals to a high-impact webinar, “Better Leverage: Outsourced Accounting Solutions,” on **Wednesday, June 4 - 9:30 - 10:30pm GMT+5:30**. The one-hour virtual event will reveal how companies can cut accounting costs by 50% or more, without compromising transparency, control, or quality.

According to industry data, 75% of businesses overpay for in-house accounting, burdened by hidden costs like salaries, benefits, technology upkeep, and staff turnover. IFG US offers a smarter path forward: U.S.-based, scalable outsourced accounting solutions that reduce overhead and boost operational efficiency.

Key Takeaways:

- How to reduce accounting spend by 50%+ through outsourcing
- Common cost traps in in-house finance teams
- Why leading CFOs are shifting to agile, outsourced models
- Real-world case studies from IFG’s client base

Businesses often don't realize how much internal accounting really costs, said an IFG US Practice Director. This webinar shows how to transform finance operations while keeping full control—no offshore confusion, no lost visibility.
