Redondo Beach, California May 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - Booming Bookkeeping Business, the industry-leading virtual bookkeeping training platform founded by CPA and bestselling author Bill Von Fumetti, has officially celebrated a major achievement: surpassing 8,000 students in its acclaimed Booming Bookkeeping Mentorship Program. In a vibrant celebration of success, Bill Von Fumetti

recently awarded dozens of high-performing students who have reached extraordinary revenue milestones through their own home-based bookkeeping businesses.

The recognition ceremony, which took place online and was streamed to the Booming Bookkeeping Business community, honored students who reached revenue benchmarks ranging from their first client to surpassing six figures annually. The awards are part of a long-standing tradition by Von Fumetti to spotlight and celebrate the achievements of students who have embraced the program's promise: freedom, flexibility, and financial independence through a proven, in-demand skill.

"Seeing our students succeed, many of whom had no prior experience in bookkeeping or business, is incredibly rewarding," said Von Fumetti. "This isn't just about hitting income goals. It's about rewriting lives. These awards symbolize the freedom our students have gained by building thriving, home-based businesses."

The celebration also spotlighted the growing popularity of the 5-Day Keyboard Rich Challenge, an introductory training program designed to help individuals take their first step into the world of remote bookkeeping. A surge of positive Keyboard Rich Challenge reviews online reflects the excitement and life-changing outcomes experienced by hundreds of participants.

A Booming Community of 8,000+ Students, and Growing

Booming Bookkeeping Business, founded in 2018, has transformed into a global movement, empowering students in over six countries. Through its flagship Booming Bookkeeping Mentorship Program, the company teaches everyday people, regardless of prior experience, how to start and grow highly profitable virtual bookkeeping businesses from home.

The program features lifetime access to:

- Comprehensive on-demand training modules
- Weekly live coaching calls
- Private mastermind communities
- Unlimited email support
- Personalized guidance from Von Fumetti himself

Many students report landing their first clients before completing the training, with others quickly scaling their operations to six figures annually, all while enjoying complete control over their schedules and lifestyle.

The Power of Bookkeeping: High-Demand, High-Income, Fully Remote

According to Intuit's annual survey, virtual bookkeepers earn an average of \$76 per hour. This equates to over \$150,000 per year for full-time practitioners, without the overhead of traditional business models or the high risk of ventures like MLMs or drop-shipping.

"Bookkeeping is one of the most in-demand, respected, and high-margin businesses available today," said Von Fumetti. "And the best part? You can do it from anywhere with an internet connection. Whether you're traveling or at home with your kids, this business fits your life, not the other way around."

Real People, Real Results

The success stories are as diverse as they are inspiring. Among the most celebrated award recipients were:

- Ann, who lost her job and replaced her income within six months
- Maura, who went from zero experience to earning over \$75K annually in under a year
- Kris, who added \$80,000 in revenue in just six months
