

Kremy Flame: The Voice Between Worlds and Words

UK-based author stirs hearts with poetic novel ‘Letter Beyond Time’ — a story that whispers from the silence beyond loss.

London, United Kingdom May 25, 2025 ([IssueWire.com](https://www.IssueWire.com)) - For Kremy Flame, writing is not just storytelling. It's a search for meaning — a soft echo through the places most people never dare to go.

Based in the UK, Kremy Flame is an author who finds purpose where others see only shadow. Her debut novel, *Letter Beyond Time*, is not about formulas or genres. It's about feeling. It follows a woman who has lost everything but the ability to love — and the man who shouldn't exist, yet is more human than anyone around her. But even that is only the surface.

“At first glance, someone might think this is the story of a woman torn between the pain of the unknown and the hope she's clinging to. But the real story is the one that stays silent. The one breathing behind her,” says the author.

Kremy writes from the space between the seen and unseen — giving voice to silence, and light to absence. Her book doesn't shout. It touches. It asks questions. It stays.

When asked why she wrote it, Kremy simply said: “It was incredibly hard to finish. Not because I didn't know what to write — but because her tears were running down my own face.”

Readers who dare to open this story won't just find pages. They'll find a presence — one that lives between memory and mystery. *Letter Beyond Time* is for those who still believe that dreams and hope can guide us, even through darkness. It is a genre with no name and a soul that echoes.

Letter Beyond Time is available now on [Amazon](https://www.amazon.com) and [Goodreads](https://www.goodreads.com). To learn more about the author and upcoming works, visit kremybooks.com.
