Jaipur, Rajasthan Jun 11, 2025 ([IssueWire.com](https://www.issuewire.com)) - [Mindspace Outsourcing Services Pvt. Ltd.](#) is proud to announce that its Director and Co-founder, **Kshitij Jain**, has been honored as one of Insightful Accountant's **Top 50 International ProAdvisors 2025**. This prestigious recognition highlights his outstanding contributions to the accounting industry and his commitment to delivering top-tier advisory services globally.

Insightful Accountant, a leading news platform for small business advisors, launched this inaugural international list to recognize outstanding consultants outside the United States who have embraced and elevated the ProAdvisor program. The selection process is known to be rigorous, and the list celebrates professionals who consistently demonstrate deep expertise, innovation, and a client-centric approach.

William "Murph" Murphy, Senior Technical Editor at Insightful Accountant, congratulated all honorees, acknowledging the effort and dedication required to make the list. "Each ProAdvisor selected has gone above and beyond to serve their clients and grow their firms using the tools and training provided by the ProAdvisor program," he said.

Reflecting on the honor, **Kshitij Jain** stated, "Being included in this elite group of international professionals is a true honor. It reflects the relentless effort of our team at Mindspace in staying ahead of industry trends, leveraging technology effectively, and ensuring the success of every client we serve."

This marks the second year **Insightful Accountant** has extended its ProAdvisor Awards to an international audience, and the twelfth year of the program overall. Gary DeHart, Publisher and Managing Partner of Insightful Accountant, emphasized, "These professionals represent the best in the industry. Their continued education and application of advanced knowledge make them invaluable to the small business ecosystem."

Mindspace Outsourcing Services continues to stand out for its excellence in global **accounting solutions**, and this recognition further solidifies its leadership in the field.
