Las Vegas, Nevada Jun 1, 2025 ([IssueWire.com](https://www.IssueWire.com)) - In a marketplace saturated with hustle culture and cookie-cutter coaching, internationally recognized business strategist and intuitive mentor [Lisa Stamper](#) is ushering in a new paradigm of success—one where intuition and elite strategy collide to build movements, not just businesses.

As the creator of the [Millionaire Flow Protocol®](#) and [The L.E.T. Method™](#), Stamper has empowered thousands of high-achieving women across the globe to scale their impact, income, and influence—without compromising their energy, values, or wellbeing.

“The most powerful thing a woman can do is remember who she is and rise from that place. My work isn’t just about scaling businesses; it’s about helping women embody their full truth and build legacies that last,” says Stamper.

Lisa’s signature frameworks help women transcend survival-based business models and access a flow state of leadership. With her support, clients regularly achieve \$10K–\$100K months while feeling more aligned, grounded, and sovereign than ever before.

Her methods blend deeply intuitive coaching with strategic systems for brand messaging, premium offers, and legacy positioning. It’s this holistic approach that’s led to her being invited to speak at **Harvard, Oxford, Stanford**, and featured in **Times Square**, among other prestigious platforms.

“I went from doubting my worth to creating an empire rooted in soul, strategy, and service,” one client shares. *“Lisa didn’t just coach me — she activated me.”*
