

Maverick Homemade Goods Launches Tooth of The Lion – A Natural Oil Pulling Solution for Oral Pain Relief and Detox

Created by two women who faced dental emergencies with no quick access to care, this herbal formula offers fast, natural relief through the ancient practice of oil pulling.

Newark, New Jersey May 29, 2025 ([issuewire.com](https://www.issuewire.com)) - Maverick Homemade Goods, a holistic body care brand rooted in real-life remedies and ancestral plant wisdom, announces the launch of **Tooth of The Lion Oil Pulling Solution**—a powerful, all-natural oral detox formula now available at www.maverickhomemadegoods.com.

Born from necessity, **Tooth of The Lion** was co-developed by founders Nidja Fisher and Kiamo Stroud after they both endured severe dental abscesses with limited access to care. “Some of the most powerful remedies are born from necessity,” says Fisher. “That’s exactly how this product came to life.”

It began when Stroud gifted Fisher a potent herbal tea she had created for her own tooth pain. “It was so effective,” Fisher recalls, “we decided to take it further.” They enhanced the formula by incorporating coconut oil, calendula oil, turmeric, and oil of oregano—then began oil pulling, the ancient practice of swishing oil in the mouth to extract toxins, reduce bacteria, and promote oral health.

The results were fast and unexpected. Within 10 minutes, the pain was gone. By the next morning, their abscesses had either vanished or significantly reduced.

After sharing the oil with friends and family, they observed consistent results:

- Less white residue on the tongue
- Fresher breath and reduced plaque buildup
- Fewer tonsil stones
- Whiter, brighter smiles

“We created Tooth of The Lion to help people just like us—folks who are suffering and don’t have access to fast, affordable care,” says Fisher. The solution is designed not just for toothaches, but may also support those with oral thrush, bleeding gums, oral herpes, abscesses, bad breath, and even oral STDs.

To further their mission, Fisher and Stroud are offering **3 full-size jars** of Tooth of The Lion to individuals currently dealing with any of the conditions listed above. Selected participants will document their 30-day journey with before-and-after photos and provide honest feedback.

Interested participants can apply by emailing maverickhandmadegoods@gmail.com with a brief description of their oral issue and a willingness to track their results.

“We believe healing should be accessible,” says Stroud. “Tooth of The Lion was created from love, pain, and herbal wisdom—and it’s changing lives.”
