Which Driving Test Is the Hardest?

The answer varies depending on location, but in the United Kingdom, the manual driving test is widely considered the most difficult due to its complexity and the need for fine vehicle control. It requires a deep understanding of gear control, clutch balance, and road awareness—all of which are thoroughly covered in our advanced training programs at Ansari Driving School.

Compared globally, the UK has one of the strictest driving test standards, demanding precision, road safety awareness, and mental readiness—making it a challenge even for experienced drivers.
