

My Legal Pal Launches as the Go-To Online Platform for Smart, Affordable & Trusted Legal Services

New Delhi, Delhi May 16, 2025 ([IssueWire.com](https://www.issuewire.com)) - My Legal Pal launched its innovative legal services platform, marking a significant milestone in the digital transformation of legal access across India and globally. This ground-breaking platform brings affordable, transparent, and expert legal services to individuals, entrepreneurs, and businesses around the world, challenging traditional models of legal service delivery.

Founded by distinguished legal entrepreneur Mr. Prakhar Rai, My Legal Pal represents a paradigm shift in how legal services are discovered, accessed, and delivered. The platform offers comprehensive solutions spanning contract drafting, trademark registration, corporate advisory, litigation support, data protection compliance, family law consultation, and startup legal services, all through an intuitive, user-friendly interface.

"Legal services shouldn't be a luxury, it should be a right," said Mr. Rai, Founder and Managing Attorney at My Legal Pal. "After years in the legal profession, I witnessed first-hand how quality legal assistance remains inaccessible to many due to prohibitive costs, complex processes, and information asymmetry. My Legal Pal bridges the gap between people and practical legal solutions through a technology-first, client-focused approach that prioritizes transparency, efficiency, and empowerment. To people in need, we also provide free legal advice and opinions"

Growth Vision

The company has outlined an ambitious roadmap that includes:

- Expanding its lawyer network across additional jurisdictions in the next 18 months
- Launching specialized legal service packages for high-demand industries
- Introducing AI-assisted document review and drafting capabilities
- Developing embedded legal service options for business platforms and marketplaces
