

Nina Maouelainin, DO, MBA, FCCP: Pioneering Interventional Pulmonology Care in Greater Philadelphia

Transforming Lung Cancer Treatment and Awareness Through Innovative Approaches

New York City, New York May 9, 2025 ([Issuewire.com](https://www.issuewire.com)) - Dr. Nina Maouelainin, a distinguished figure in the field of interventional pulmonology, is making significant strides in lung cancer treatment and awareness in the Greater Philadelphia area. With a rich background that spans continents and a

passion for patient care, Dr. Maouelainin is dedicated to providing state-of-the-art services through her organization, Lung Health Services.

Born in Morocco, Dr. Maouelainin began her medical journey in France before realizing her dream of practicing medicine in the United States. She earned her Biochemistry degree from Juniata College and went on to graduate from the Philadelphia College of Osteopathic Medicine in 2005. Her medical training continued at Crozer-Chester Medical Center, where she honed her skills and knowledge. In 2008, she embarked on a three-year fellowship in Pulmonary Disease and Critical Care Medicine at Drexel University – Hahnemann University Hospital, where she initially focused on Cystic Fibrosis.

During her fellowship, Dr. Maouelainin encountered exceptional mentors who inspired her to pursue one of the first accredited interventional pulmonology fellowships at the Cancer Treatment Centers of America in Philadelphia. This pioneering program was established at a time when interventional pulmonology was still emerging, even at leading tertiary care centers. Upon completing her fellowship in 2011, Dr. Maouelainin established Pennsylvania's first successful private interventional pulmonology program, drawing on her extensive training and leadership experience.

Today, as the CEO and President of Lung Health Services, Dr. Maouelainin oversees daily operations while maintaining a focus on providing cutting-edge care to lung cancer patients. Lung Health Services specializes in minimally invasive procedures that allow for early diagnosis of lung cancer and other chronic lung conditions. This proactive approach enables patients to receive prompt and aggressive treatment, which has been shown to improve outcomes significantly.

In addition to innovative treatment options, Dr. Maouelainin is deeply committed to increasing lung cancer awareness within the community. Through her initiative, Direct Pulmonary Care, she aims to educate patients and their families about the importance of early detection and comprehensive treatment plans, ensuring that all individuals facing lung cancer and chronic lung conditions have access to the care they need.
