

## Planet Plumbing Launches New Designer Radiator Range

A fresh take on home heating with modern and traditional designs

**Rainham, Essex May 13, 2025 ([Issuewire.com](https://www.issuewire.com))** - Planet Plumbing, a leading designer radiator seller, has unveiled a new range of designer radiators. The new collection offers many styles that suit every home. The range includes modern radiators, traditional radiators, luxury radiators, vertical radiators, horizontal radiators, and cast iron radiators. These products bring a stylish look and work well with central heating systems. They also come with easy-to-fit radiator valves that help set the best heat

output.

The new range gives home heating solutions a fresh look. Customers can choose radiators that match their interior style. The collection comes in different radiator sizes and shapes. For instance, there are column radiators and steel radiators. The selection also features NRG radiators and wradiators, which work with regular heaters and central heating radiators. With designs for vertical radiators and horizontal radiators, the range meets many space needs.

"We are pleased to offer a broad range for every taste," said John Smith, Sales Director at Planet Plumbing. "Our new collection gives customers a choice of both modern and traditional radiators. We designed our radiators to work well in any setting. Our products help homes save space and add style."

Planet Plumbing also offers free delivery on all orders. That makes it easy for customers to get their new home heating solutions. The company uses high-quality materials to ensure a long life and steady heat. The radiators give the best performance measured in BTUs and are perfect for central heating setups. Customers can check different options to suit both small and large spaces.

This new lineup also includes other useful heating products. Homeowners can find radiator valves that work well with any design. The collection is a strong choice for those who want to update their home with modern and classic choices. The new range helps customers lower energy costs while keeping a warm home. The design works with many heater types and meets strict size requirements.

Planet Plumbing has built a strong reputation as a designer radiator seller. The company focuses on high-quality products and smooth service. It has served many homes with central heating radiators and heaters. For more details, visit [www.planetplumbing.co.uk](http://www.planetplumbing.co.uk).
