

"Prasanna Kumara Dissanayake Leads the Fight Against Fake Accounts and Cyber Threats in Sri Lanka"

Sri Lankan Tech Talent Prasanna Kumara Dissanayake is helping users protect their online presence through cybersecurity awareness and social media safety.

Badulla, Sri Lanka May 16, 2025 ([IssueWire.com](https://www.issuewire.com)) - Prasanna Kumara Dissanayake, born on February 2, 2003, in Badulla, Sri Lanka, is a young digital enthusiast dedicated to enhancing cybersecurity awareness. A graduate of Uva College, Badulla, he has cultivated skills in digital literacy, social media management, and online safety.

Specializing in identifying and removing fake social media accounts and recovering hacked profiles, Prasanna offers assistance across platforms including Facebook, Instagram, Telegram, YouTube, and Twitter (X). His commitment to digital security has helped numerous individuals and businesses regain control of their online presence.

Driven by a mission to educate others about the importance of cybersecurity, Prasanna shares practical advice and tutorials through his social media channels. He aims to build awareness around online threats such as phishing and unauthorized access, providing strategies to counter them.

Looking ahead, Prasanna plans to expand his knowledge in ethical hacking and develop dedicated platforms to support Sri Lankans facing online threats. His goal is to make technology accessible and safe for everyone.
