Mumbai, Maharashtra May 12, 2025 ([Issuewire.com](https://www.issuewire.com)) - Raja Games, a mobile-first platform offering logic-based color prediction games, has announced its launch in India. The platform focuses on delivering an engaging gaming experience centered around skill and strategy, rather than chance.

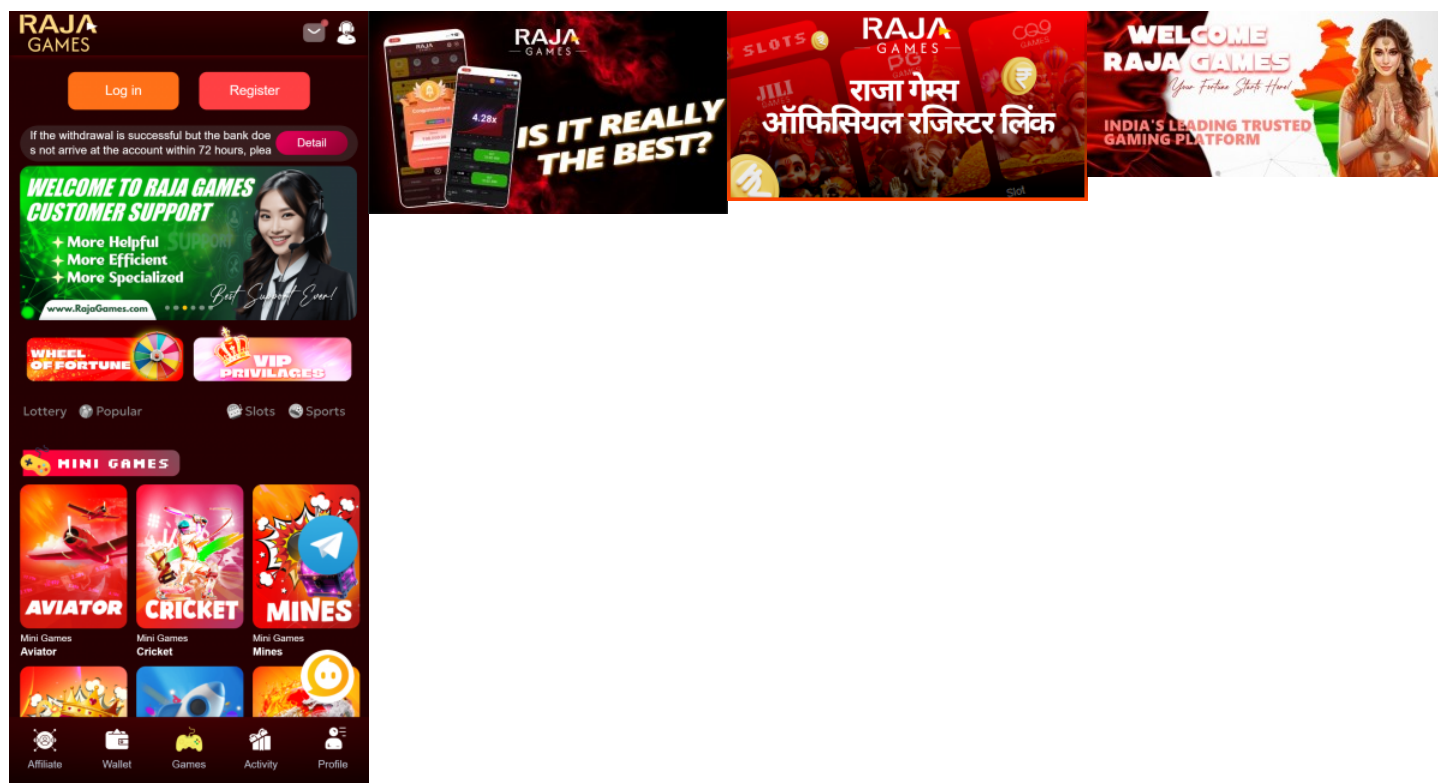

Raja Games provides users with a mobile-friendly interface and emphasizes legal transparency.

According to its official [Legal Policy](#), the platform operates within a skill-based model, aligning with regulatory expectations in India.

The team behind Raja Games states that their mission is to provide responsible, entertaining digital gameplay. For more information, visit <https://rajagames7.in>.

About Raja Games:

Raja Games is an Indian digital gaming platform designed for users seeking skill-based entertainment through logic-driven color prediction games. The platform offers full transparency and supports fair play.
