Samarpans Business Group: Rekindling India's Spirit, From Villages to the World

Udaipur, Rajasthan May 4, 2025 ([Issuewire.com](https://www.issuewire.com)) - Samarpans Business Group: A Rural Dream Now Powering India's Cultural Economy

In a world driven by cutthroat competition and profit-first models, **Samarpans Business Group** is quietly leading a revolution — one rooted not just in commerce, but in **culture, compassion, and community upliftment**.

Founded by **Dr. Avinash Gulabji Joshi**, a visionary entrepreneur from the remote village of **Nadarpur** in **Chhatrapati Sambhajinagar, Maharashtra**, Samarpans Business Group has grown from humble beginnings to a diversified enterprise with **14+ verticals**, **600+ livelihoods supported**, and a growing national footprint.

"We are not just building businesses — we are reviving Bharat," says Dr. Joshi. "Our work is based on the principles of *seva*, *sanskriti*, and *swadeshi upliftment*."

A Model of Integrated, Ethical Entrepreneurship

Headquartered in **Sagatada, Rajasthan**, Samarpans Business Group is a fusion of **Vedic wisdom** and **modern entrepreneurship**, with ventures spanning healthcare, education, publishing, agriculture, finance, and FMCG.

Among its key initiatives:

- **Surabhi Sparsh Soap**: India's first **herbal anti-dandruff soap** made from Ayurvedic and gau-based ingredients, trusted by over **17,000 users**.
- **Samarpan Healing Center**: Providing alternative wellness therapies including **naturopathy, acupressure, and psychological healing**.
- **Dattansh Agro Pvt. Ltd.**: Promoting organic farming and empowering farmers through traditional, sustainable practices.
- **Swarajya Credit Union**: Offering rural microfinance services with ethical, transparent operations.
- **Samarpan Talent Search Exam**: Identifying and nurturing talent from small towns and rural belts through accessible academic competitions.
- **Shraddha Goshala** and **Bharat Ayurveda Pharma**: Reviving traditional Indian veterinary care and Vedic medicine through research and community service.

Each vertical functions not only as a revenue stream but also as a tool for **social healing, cultural preservation, and employment generation**.

## Exporting Indian Values: Global Expansion Begins

This **Dussehra**, the group will officially launch **Samarpan Business Group International Trade**, with its first export batch — including books, herbal products, and wellness kits — to be shipped from **Gandhidham Port, Gujarat**.

“We are not exporting products; we’re sending pieces of India’s soul to the world,” Dr. Joshi emotionally shares.

## Resilience Rooted in Values

What sets Samarpan apart is not only what it produces, but how it operates. Even during the COVID-19 crisis, while businesses shuttered, Samarpan continued to:

- Provide **free herbal immunity boosters** to hundreds of villages.
- Offer **free mental health support and healing sessions**.
- Train women and youth to start **microenterprises from home**.

Today, Samarpan is more than a brand — it’s a **movement of trust**, especially among those often overlooked: rural sellers, small traders, housewives, and first-time entrepreneurs.

## Looking Ahead: Call for Partners, Investors & Dreamers

With a mission to **reach every Indian household** and expand across continents, Samarpan Business Group is seeking like-minded partners, investors, and contributors who believe in **value-based business and cultural revival**.

“If your heart beats for Bharat, this is your mission too,” says Dr. Joshi.
