

Smile By Design Revolutionizes Orthodontics with Invisalign Clear Aligners

North York, Ontario May 16, 2025 ([IssueWire.com](http://www.IssueWire.com)) - Smile By Design is proud to offer Invisalign® clear aligners, providing patients with a modern, discreet alternative to traditional metal braces. This innovative treatment addresses dental issues such as misalignment, spacing, and overcrowding in a fraction of the time typically required by conventional methods.
smiledesignmanhattan.com

Invisalign aligners are custom-designed to fit each patient's unique dental profile, ensuring effective and comfortable treatment. Unlike traditional braces, these clear aligners are virtually invisible and can be removed during meals and oral hygiene routines, offering unparalleled convenience and aesthetics .

"Our goal is to provide effective orthodontic solutions that align with our patients' lifestyles," said Dr. Jerry Jesin, founder of Smile By Design. "Invisalign allows us to achieve that by combining advanced technology with patient comfort."

To make this cutting-edge treatment more accessible, Smile By Design offers a complimentary iTero® digital scan for prospective Invisalign patients and flexible financing options through Beautifi, accommodating various budgetary needs .

Patients interested in transforming their smiles can schedule a free virtual consultation by visiting www.smile-by-design.ca or calling 416-800-1581.
