

Susan Fredericks, DDS, MPH: A Pillar of Excellence in Dentistry and Community Service in Southern California

Enhancing Oral Health and Patient Confidence with Compassionate, Comprehensive Care

New York City, New York May 26, 2025 ([IssueWire.com](https://www.issuewire.com)) - Susan Fredericks, DDS, MPH, a board-certified dentist, is redefining the dental experience for residents of West San Fernando Valley, Calabasas, and the greater Los Angeles area. At her state-of-the-art practice, Southern Cal Smiles, she offers a comprehensive range of general, cosmetic, and restorative dental services, ensuring patients achieve and maintain optimal oral health while enhancing their smiles with confidence.

Dr. Fredericks is well-known for her sophisticated cosmetic dental procedures, which include teeth whitening, porcelain veneers, and Invisalign for teeth straightening. Her expertise extends to dental bonding and contouring, as well as complete smile makeovers for patients seeking multiple enhancements. In addition to her cosmetic offerings, she is committed to restorative dentistry, providing solutions such as dental implants for those with missing teeth and full-mouth reconstruction for patients with complex dental needs.

“While many people come to us for aesthetic improvements, my primary focus is on helping patients achieve and maintain good oral health,” says Dr. Fredericks. “I believe that a beautiful smile is rooted in a healthy mouth.”

Dr. Fredericks’ journey in dentistry began with a Bachelor of Arts in Biology from UCLA in 1977, leading her to earn her Doctor of Dental Surgery Degree from the UCLA School of Dentistry in 1981. Furthering her commitment to public health, she completed a Master of Public Health Degree at UCLA in 2016. This educational foundation empowers her to integrate vital public health principles into her practice, ensuring her patients receive comprehensive care.

With over three decades of experience, Dr. Fredericks prioritizes continuing education to stay abreast of advancements in dental technology and techniques. Her practice, Southern Cal Smiles, reflects her dedication to both preventative and advanced restorative dentistry. Dr. Fredericks is well-equipped to handle complex cases, utilizing her extensive knowledge to provide effective solutions in dental implants, periodontal treatments, and advanced procedures.

Dr. Fredericks is not only recognized for her clinical expertise but also her collaborative approach within the dental community. She maintains strong relationships with specialists, including oral surgeons, orthodontists, periodontists, and endodontists, to ensure that her patients receive the best possible outcomes. Her reputation for excellence extends beyond her practice; she is also a trusted reviewer for the California Dental Board, a role few dentists in the state undertake. Her memberships in professional organizations, such as the American Academy of Cosmetic Dentistry, the American Dental Association, the California Dental Association, and the San Fernando Valley Dental Association, reflect her commitment to lifelong learning and professional development.

A passionate advocate for community service, Dr. Fredericks dedicates her time to giving back. As a volunteer faculty member at the UCLA School of Dentistry, she mentors students and takes them to the MEND Clinic in Pacoima, where they provide essential dental services to low-income and homeless patients. Additionally, Dr. Fredericks has organized dental missions to Honduras, extending care to communities with limited access to dental services. Her involvement on the Board of Directors for MEND, UCLA School of Dentistry, and West Hills Hospital exemplifies her dedication to improving community health.

On a personal note, Dr. Fredericks resides in Calabasas with her husband. Her passion for healthcare has inspired her children to pursue careers in the medical field. Her daughter, Danielle, a 2016 graduate of the UCLA School of Dentistry, is currently specializing in oral surgery, while her son, Brett, is a medical student in Chicago.

“Being a dentist is not just a job for me; it’s a calling,” states Dr. Fredericks. “I love what I do, and I believe in the importance of empowering the next generation of healthcare professionals.”

At Southern Cal Smiles, patients can expect a warm, welcoming environment where their dental needs are prioritized. Dr. Fredericks and her team are devoted to delivering personalized care tailored to each

patient's unique circumstances and desires. By blending advanced technology with compassionate treatment, Dr. Fredericks aims to create smiles that not only look great but also reflect the health and well-being of her patients.
