

Sushant Rajput: Guiding Young Professionals Towards Success

In a world where academic credentials and technical skills are often seen as the sole drivers of career growth, Sushant Rajput offers a refreshing alternative—one that emphasizes clarity, adaptability, and values-driven success through his books.

Hyderabad, Telangana May 11, 2025 ([IssueWire.com](https://www.issuewire.com)) - In a world where academic credentials and technical skills are often seen as the sole drivers of career growth, Sushant Rajput offers a refreshing alternative—one that emphasizes clarity, adaptability, and values-driven success. With over two decades of corporate experience across IT, ITES, and financial services, he has served in influential roles at HCL Technologies, Societe Generale, Cognizant, and Deutsche Bank. Currently, he is the Vice President at eClerx Services Ltd., where he combines strategic vision with mentorship to foster both business excellence and individual potential.

From Computer Science to Corporate Strategy

Sushant's academic journey started with a Bachelor's in Computer Science and an MBA in Marketing & Systems. But his real education, as he often says, came from navigating the evolving corporate landscape. He moved from tech to investment banking operations, then transitioned into business development—proving that career growth isn't linear, but intentional.

Connecting Academia and Industry

As a visiting faculty member and corporate mentor for MBA students, Sushant is known for bridging the theory-practice gap. His sessions go beyond textbooks, introducing students to real-world corporate challenges, unwritten rules of professionalism, and life skills such as communication, networking, and handling feedback. His approachable style and rich experiences make him a favorite among students seeking practical wisdom.

The Author Who Speaks to the Youth

Sushant's transition into writing was driven by a recurring feedback: "Why didn't anyone teach us this earlier?" His first book, *I Wish Someone Told Me This Before My First Job*, became an Amazon bestseller. It distills years of experience into actionable advice for those entering the professional world—covering topics like managing expectations, workplace politics, time management, and personal finance.

His second book, *Mindful Momentum: Navigating Procrastination and Overthinking*, addresses the silent struggles many young professionals face. Launched in January 2025, it helps readers recognize mental blocks, overcome inaction, and regain focus. The book is peppered with real stories, practical frameworks, and mindfulness exercises tailored for a fast-paced world.

Recognitions and Accolades

Sushant's contributions have earned him wide recognition:

- TEDx Speaker at Ravenshaw University, where he delivered a powerful talk on "Going Against the Flow"—encouraging audiences to break stereotypes and choose paths aligned with their values.
- Asia's Most Promising Professional Skills Trainer & Inspiring Writer Award by Asia Awards (World Research Congress)
- Bharat Vibhushan Puraskar 2024 for *Mindful Momentum* as the "Best Self-Help Book of the Year for Students and Young Professionals"
- Rabindranath Tagore Literature Award by DRDC
- Indo-British Literary Award from The Authors of India
- India Icon Award 2024 – Recognized as the Most Inspiring Author, Trainer, and Motivational Speaker
- Named among the Top 5 Writers of 2024 by Mid-Day

The Scholar-Practitioner

Sushant is currently pursuing a PhD from SP Jain School of Global Management, where his research focuses on leadership and behavioral psychology. His academic contributions have been featured at several international conferences, underlining his position as a thought leader in the fields of management education and human development.

Legacy Beyond Titles

What truly distinguishes Sushant is not just his list of roles or awards, but his commitment to making a difference. Whether he's teaching in a classroom, mentoring a young graduate, writing a new book, or speaking on a TEDx stage, his mission is consistent: to guide young minds with honesty, empathy, and

actionable insights.

His journey shows that success is not about climbing ladders—it's about building bridges. Bridges between knowledge and wisdom, fear and action, and most importantly, between who you are and who you aspire to become.
