

The Rescue Federation Opens Doors to Equity-Based Co-Founders and Investors as Part of Its Expansion Plans

The Rescue Federation invites aspiring entrepreneurs and strategic investors to become part of its mission-driven journey by offering equity-based co-founder roles and a 15% stake for growth-focused investment.

New Delhi, Delhi May 13, 2025 ([Issuewire.com](https://www.issuewire.com)) - [The Rescue Federation®](#), a fast-growing healthcare service provider in India, is inviting passionate co-founders and forward-thinking investors to join its next chapter. The organization is offering **equity-based roles** to select co-founders, along with the opportunity for investors to acquire a **15% stake** in the company.

Focused on providing smooth and accessible [patient transportation](#) services through road, rail, and air, The Rescue Federation® has emerged as a trusted name in healthcare logistics. With a growing presence across states, the company is now preparing to scale its operations, build stronger infrastructure, and expand its reach into untapped regions.

To achieve this, the company is looking for **co-founders with entrepreneurial drive**, especially those with backgrounds in business strategy, marketing, health-tech, or fundraising. These are non-salaried

positions compensated through equity, perfect for individuals who want to create meaningful impact while holding ownership in a purpose-driven brand.

Simultaneously, The Rescue Federation® is offering a **15% equity stake for investors** interested in becoming long-term partners. This capital will help accelerate existing projects and support expansion into new service verticals.

“Today, there’s a need for collaboration to build something that truly serves people in their most vulnerable moments,” said **Dr. Amit Magare, Founder of The Rescue Federation®**. “Those who join us now—whether as co-founders or investors—will not only hold equity in a promising business but also play a direct role in shaping the future of healthcare access.”

What’s in it for Co-Founders and Investors?

- **Equity and Ownership:** Partners joining at this stage will hold a significant share in a brand with strong future potential.
- **Real Impact:** The Rescue Federation® is already improving access to care through its services—and this is only the beginning.
- **Fast-Growing Sector:** The healthcare transport and support market in India is rapidly expanding, with room for innovation and large-scale growth.
- **Founding-Level Decision Rights:** Co-founders will have a seat at the table, contributing directly to high-level strategies and developments.
- **Clear Vision, Transparent Operations:** Investors will receive regular updates, with all progress tied to specific milestones.

The company is currently developing several projects aimed at making healthcare services more responsive and accessible. These include digital tools, improved transportation systems, and new service models designed to serve both urban and remote populations more efficiently.

About The Rescue Federation®

The Rescue Federation® is a registered healthcare brand under Amit Magare’s Innovation Private Limited. It offers reliable patient transportation services via road ambulances, train transfers, and air-based evacuations, helping people in need reach medical facilities on time. The organization also supports medical tourism and cross-border health coordination, offering end-to-end logistical support for patients and families.

Recognized for its strong vision, red-and-white identity, and people-first approach, The Rescue Federation® is working to reshape how patients access timely medical care across India.
