

Travel Smarter with Birds – ibiyaya's Medium Size TrackPack Bird Backpack is Here

Woodland, California May 3, 2025 ([IssueWire.com](https://www.issuewire.com)) - ibiyaya, a global innovator in pet mobility solutions, is proud to introduce the **Medium Size TrackPack**, an expertly designed bird travel carrier developed in collaboration with BirdTricks. This premium carrier is built for medium-sized parrots such as African greys, Amazon parrots, eclectus parrots, golden-capped conures, and rose-breasted cockatoos, offering unparalleled comfort, security, and convenience. Whether on a hiking trip, a road

journey, or a vet visit, the TrackPack ensures a safe and enjoyable experience for both bird and owner.

A Bird Carrier That Blends Comfort with Practicality

Designed with both avian and human needs in mind, the Medium Size TrackPack provides **optimal ventilation** through its **304 stainless steel mesh front panel**, ensuring birds can breathe freely while enjoying panoramic views. The **earth-tone color scheme** is chosen specifically to create a calming environment, reducing stress for birds on the go. Additionally, the **adjustable perch system**, supported by a patented side rail design, allows for easy customization to accommodate birds of different sizes.

For car travel, the **rear attachment loop** secures the carrier with a seatbelt, minimizing movement and ensuring a smooth ride.

Safety-Driven Features for Total Peace of Mind

ibiyaya's commitment to pet safety is evident in the thoughtful design elements of the Medium Size TrackPack:

- **Lockable Metal Zippers** – Prevent birds from opening the carrier from the inside.
- **LED Light Holder** – A secure elastic band accommodates an LED light or torch for improved visibility at night.
- **Velcro-Sealed Openings** – Keeps unused openings securely closed to prevent accidental exposure to sharp edges.

Built for Durability and Everyday Convenience

Maintaining the Medium [TrackPack Bird Backpack](#) is effortless, thanks to its **removable stainless steel mesh panels and waste tray**. The **weather-resistant fabric** provides protection against light rain, while **padded adjustable shoulder straps** and a **chest buckle** ensure comfort for bird owners during extended wear.

For added convenience, the **MOLLE webbing system** and **multiple storage pockets** allow users to carry essential supplies such as food, treats, and accessories with ease.

Additional Features That Elevate Travel

- **Spill-Proof Feeding System** – Comes with **two 304 stainless steel feeding bowls**, positioned to reduce spills and noise.
- **Sun & Wind Protection** – Includes a **full-cover shading cloth** to shield birds from harsh elements.
- **Thoughtful Engineering** – Reinforced bottom feet and durable knob screws ensure lasting stability and functionality.

About ibiyaya
