

Active Cleaning Solutions Expands Equipment Hire for Smarter Commercial Cleaning

Active Cleaning Solutions now offers extended dry hire services across Sydney, including small scrubber and sweeper equipment, ideal for warehouses and industrial cleaning.

Sydney, New South Wales Jun 10, 2025 ([Issuewire.com](https://www.issuewire.com)) - Active Cleaning Solutions, a trusted name in commercial and industrial cleaning, has expanded its offerings to include more flexible equipment rental options. Businesses can now access scrubber dry hire Sydney and sweeper dry hire Sydney services, making it easier than ever to maintain clean, safe, and compliant workspaces without

investing in costly machinery.

This initiative aims to support a growing demand for cost-effective solutions in warehouse and factory maintenance. The company has introduced the small scrubber Sydney range, perfectly suited for narrow aisles and compact commercial spaces. Whether it's a one-day requirement or a month-long cleaning project, clients have the freedom to choose hiring terms that best match their operational needs.

"Our mission has always been to provide practical, high-quality cleaning solutions," said the spokesperson for Active Cleaning Solutions. "With our dry hire expansion, we're giving businesses the tools to stay clean and efficient without long-term obligations."

Each piece of equipment is rigorously maintained and serviced to ensure optimal performance, allowing customers to clean with confidence. The new rental fleet also complements their existing [warehouse sweeper hire](#) services, allowing larger operations to scale their cleaning capabilities on demand.
