

Bolair Expands Its Professional Line of Spray Foam Guns for Insulation Experts

Langley City, British Columbia Jun 5, 2025 ([IssueWire.com](https://www.issuewire.com)) - Bolair Fluid Handling Systems, a leading provider of spray application equipment in Canada, has expanded its line of high-performance **spray foam guns** to meet the growing demands of insulation professionals. These advanced tools are now available through Bolair's Langley branch and online at <https://www.bolair.ca/spray-foam/spray-foam-insulation-guns.html>.

Bolair's updated offering includes industry-trusted models such as the Graco Fusion AP, Fusion PC, GX-7, GX-8, and P2. These **spray foam guns** are built for durability and accuracy, offering superior handling, reduced maintenance, and consistent spray performance for both commercial and residential projects. Designed for daily use in demanding environments, they help maximize material efficiency while ensuring uniform application.

With more than 40 years of industry experience, Bolair has earned a reputation for delivering reliable equipment and dedicated customer support. The Langley location provides full service, expert guidance, replacement parts, and fast shipping across Canada. Bolair's spray foam solutions are backed by technical expertise and an in-depth understanding of industry needs.

Whether contractors are upgrading aging tools or seeking dependable solutions for large-scale projects, Bolair delivers the spray foam guns and support necessary for long-term success.
