

BrandifyIT Launches AI Publisher, the WordPress AI Content Generator Guaranteeing 80+ SEO Benchmark Scores

Unifies AI writing, image generation, SEO keywords and LLM optimization, and auto-generated LinkedIn, Facebook, and X captions inside WordPress, publishing ready posts and shares in one click. Scores 80+ on SEO Benchmark and avoids topic overlap.

New York City, New York Jun 26, 2025 ([Issuewire.com](https://www.issuewire.com)) - BrandifyIT AI today released **AI Publisher for WordPress** (<https://brandifyit.ai/ai-publisher/>), an AI content writer plugin that writes, optimizes, generate images, conduct quality-checks and even generate social posts for every article directly inside WordPress, each one clearing an 80 + SEO Benchmark score before it can go live.

What makes AI Publisher different

- **Zero-overlap topic engine** scans the entire site first, so new posts never duplicate existing coverage.
- **Multi-step QA "guardian sprint."** Every draft runs through automated editorial, tone, SEO/LLM and error-fix passes before publishing.
- **Built-in social promotion.** Platform-specific captions for LinkedIn, Facebook and X can be generated alongside the article for one-click sharing.
- **Featured-image creation & compression** powered by DALL·E keeps pages visual and fast.

- **Transparent cost model.** A typical post, including text and image, uses roughly US \$0.08 of OpenAI credits, and the plugin works with the user's own API key.
- **Smart scheduling.** Users can queue up to 24 posts per day (70 per week) in fully automatic mode, or switch to manual review at any time.

"Our goal is simple: give marketers and creators a one-click route from idea to polished, personalized, SEO and LLM optimized post, without sacrificing brand voice or SEO integrity," said **Adem Kuric**, co-founder at BrandifyIT AI.

Live Examples & SEO Scores

Visit the [AI Publisher in Action](#) gallery to read real WordPress posts created end-to-end by the plugin. The samples show how AI Publisher maintains 80 + SEO Benchmark performance while keeping visuals sharp and copy on-brand, letting you judge real-world quality before installing.

Content Strategy Builder

Define brand tone, audience, messaging pillars, target personas, and many more brand elements once. AI Publisher's Content Strategy Builder feeds those guidelines into every draft, so each post arrives unique, personalized, and aligned with your marketing objectives.

Pricing & Trial

Start risk-free at <https://brandifyit.ai/try-it-for-free/>: download the free version (one post a week) or unlock the full plugin with a 7-day free trial. The Personal plan costs **\$49.99 /month** or **\$479.99 /year** (20 % off) and carries a 7-day money-back guarantee.

Roadmap Highlights

Multilingual content generation is explicitly tagged as a *top-priority* roadmap item, with full language expansion already in development. Upcoming releases will bring the same one-click workflow to additional markets while retaining AI Publisher's family-safe safeguards.

AI Publisher for WordPress is live today. Activate your seven-day free trial at <https://brandifyit.ai/try-it-for-free/> and experience how one click delivers an 80 + SEO Benchmark post, draft, image, QA, and social captions, without leaving WordPress dashboard.

About BrandifyIT AI

Founded in 2024, BrandifyIT AI builds tools that unite advanced AI, SEO, and LLM insights to remove the grind from publishing, letting brands focus on ideas and authentic storytelling at scale.
