

Capital Match - Venture Capital × Startup Matching

Company Matching Platform For Free To Increase Your Business Faster

New York City, New York Jul 7, 2025 ([IssueWire.com](https://www.issuewire.com)) - SASAL INC., a US-based startup company, is proud to announce the official launch of **Capital Match**, a groundbreaking digital platform designed to transform the way startups and investors discover, evaluate, and collaborate with one another. Capital Match is not just a tool—it is a movement toward democratizing access to capital, fostering entrepreneurial growth, and accelerating innovation across borders.

The Problem: A Fragmented Investment Ecosystem

In today's rapidly evolving startup landscape, thousands of promising ventures struggle to secure the funding they need to scale. Despite the proliferation of venture capital, angel investors, and crowdfunding platforms, the process of matching the right startup with the right investor remains inefficient, opaque, and often inaccessible to early-stage founders.

Investors, on the other hand, face an overwhelming volume of pitches, limited visibility into emerging markets, and difficulty in assessing compatibility beyond financial metrics. The result is a fragmented ecosystem where potential is lost, innovation is delayed, and opportunities are missed.

The Solution: Capital Match

Capital Match was born out of a simple yet powerful idea: to create a centralized, intelligent, and inclusive platform where startups and investors can connect meaningfully. Built with cutting-edge technology and a deep understanding of the entrepreneurial journey, Capital Match offers a suite of features designed to streamline the capital matching process while preserving the human element of trust and vision.

Key Features and Functionalities

- **Startup Discovery Engine**

Startups can create rich profiles that highlight their mission, product, traction, team, and funding needs. Investors can filter these profiles by industry, stage, geography, and more, enabling targeted discovery and efficient evaluation.

- **Investor Dashboard**

Investors can showcase their investment thesis, preferred sectors, ticket sizes, and past portfolios. This transparency helps startups identify aligned partners and approach them with confidence.

- **Secure Communication Tools**

The platform includes built-in messaging, document sharing, and scheduling features, allowing users to move from discovery to dialogue seamlessly and securely.

- **Global Access, Local Relevance**

Capital Match is designed to be globally accessible while supporting local ecosystems. Whether you're a founder in Tokyo, a VC in Silicon Valley, or an angel investor in Berlin, Capital Match brings the world of innovation to your fingertips.

Why Capital Match Matters

Capital Match is more than a platform—it's a catalyst for change. By lowering the barriers to entry, increasing transparency, and fostering strategic relationships, Capital Match empowers:

- **Startups** to raise capital faster, smarter, and with greater confidence.
- **Investors** are to discover high-potential ventures aligned with their values and goals.
- **Ecosystems** grow stronger through collaboration, diversity, and shared success.

In an age where innovation is the currency of progress, Capital Match ensures that great ideas are never held back by a lack of access.

Who Should Use Capital Match?

- **Early-stage startups** seeking seed or Series A funding
- **Growth-stage companies** looking for strategic investors
- **Angel investors and venture capitalists** seeking curated deal flow
- **Accelerators, incubators, and innovation hubs** supporting founder success
- **Corporate venture arms** exploring open innovation opportunities

Vision for the Future

SASAL INC. envisions Capital Match as a living ecosystem—one that evolves with the needs of its users, integrates with emerging technologies, and expands into new markets. "With Capital Match, we're building a bridge between vision and capital, between ambition and opportunity." SASAL promises that we will update Capital Match by hearing customers' voices. Please feel free to let us know your opinion.

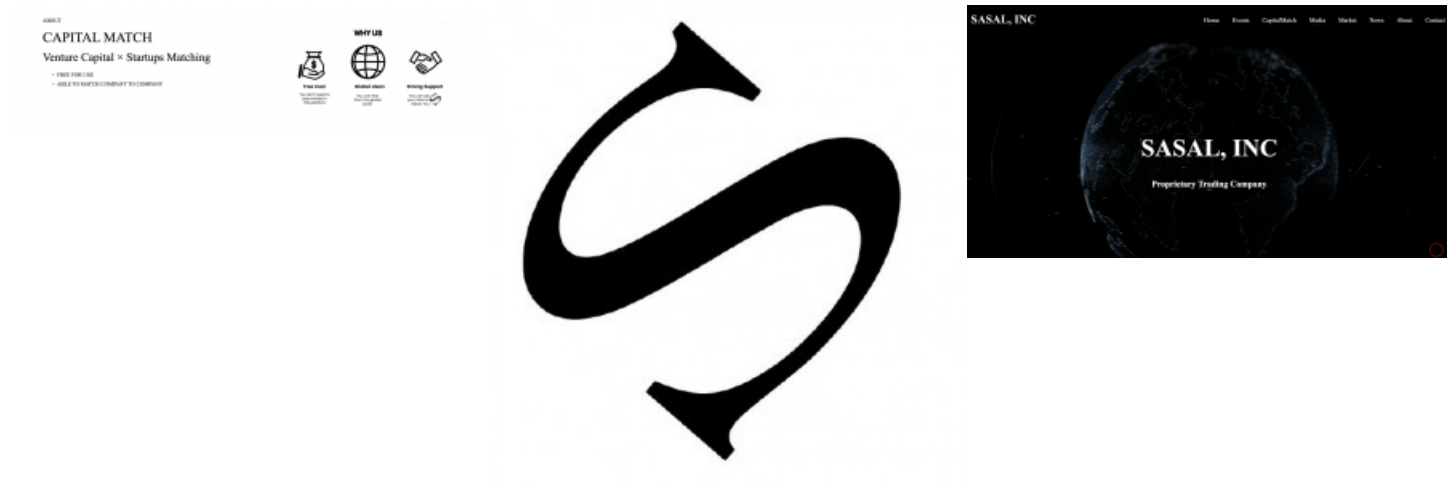

Join the Movement

Capital Match is now live and accepting registrations. Whether you're a founder with a bold idea or an investor looking to shape the future, Capital Match invites you to be part of a smarter, more connected startup ecosystem.
