

Ciente Launches SQL: Empowering Data-Driven Decision Making with Seamless Query Intelligence

Ciente, a leading innovator in business intelligence and data insights, is proud to announce the launch of Ciente SQL, a powerful new solution designed to simplify and accelerate how organizations access, analyze, and act on data.

Dubai, United Arab Emirates Jun 13, 2025 ([IssueWire.com](https://www.IssueWire.com)) - [Ciente SQL](#) marks a significant expansion of the company's product suite, offering users a streamlined interface for querying complex data with speed, precision, and ease. Built with both data analysts and business users in mind, the platform democratizes access to SQL by integrating intuitive tools, real-time collaboration, and automated recommendations that turn raw data into actionable intelligence.

"Ciente SQL is the next step in our mission to make data clarity accessible to all," said [CEO Name], CEO of Ciente. "We recognized a growing need among our customers for a solution that combines the flexibility of SQL with the simplicity of modern UX. With Ciente SQL, anyone—from technical teams to business leaders—can unlock deeper insights without steep learning curves or delays."

Key Features of Ciente SQL:

- **Natural Language to SQL:** Convert questions into optimized SQL queries using AI-driven natural language processing.
- **Collaborative Querying:** Share, comment, and co-edit SQL scripts across teams in real-time.

- **Smart Suggestions:** Leverage contextual hints, query optimizations, and schema-aware autocomplete.
- **Secure Data Access:** Maintain full governance with role-based access and data masking.
- **Integrated Dashboards:** Visualize results instantly or export to Ciente's analytics platform.

The launch of Ciente SQL reflects Ciente's continued investment in simplifying data ecosystems and fostering a culture of data literacy across organizations.

Availability

Ciente SQL is now available to existing Ciente customers and will be rolled out globally to new users starting June 20, 2025. Interested organizations can request a demo or sign up for early access at www.ciente.io/sql.

About Ciente

Ciente is a leading provider of business intelligence tools that empower teams to make faster, smarter decisions. With a focus on clarity, collaboration, and scalability, Ciente delivers solutions that help companies transform data into insight across marketing, operations, sales, and beyond.
