

Diamond Braces Opens New Office in Old Bridge, NJ

Diamond Braces, a leading provider in braces and Invisalign, has officially opened its newest dental office in Old Bridge, New Jersey

Old Bridge, New Jersey Jun 25, 2025 ([Issuewire.com](https://www.issuewire.com)) - Diamond Braces, a leading provider of braces and Invisalign in the Northeast, has officially opened its newest [dental office in New Jersey](#) — expanding access to expert-led orthodontic care in Old Bridge and Middlesex County. The new clinic offers a full range of treatments, including Invisalign, ceramic braces, metal braces, and invisible braces, all supported by flexible payment plans and insurance-friendly pricing.

Patients in the Old Bridge, NJ area can now experience the full power of Diamond Braces' modern orthodontic model, which allows you to begin your smile journey from home or allows you the convenience of walking into any authorized Diamond Braces office. For those starting remotely, patients can simply submit a few quick photos and their dental insurance information. From there, a dedicated Smile Concierge handles everything—verifying dental insurance, managing claims, and completing paperwork—so patients can stay focused on their treatment. Treatment recommendations are then provided by licensed orthodontists based on each patient's unique condition, whether it's a crossbite, underbite, spacing, or crowding issue.

After receiving their virtual consultation, patients can complete their treatment in person at any Diamond Braces office, including the new Old Bridge dental office—benefiting from real diagnostics, in-person supervision, and a personalized plan that fits their budget. It's a patient-first hybrid model that simplifies orthodontics and meets the growing demand for convenience without compromising quality.

While many dental clinics offer orthodontics alongside general dental care, Diamond Braces specializes exclusively in braces and Invisalign. This focused approach ensures that all resources—technology,

training, and expertise—are dedicated solely to creating healthy, confident smiles. Every treatment is overseen by licensed orthodontic specialists, not general dentists, guaranteeing precision planning and AI-powered diagnostics from professionals who focus entirely on orthodontics.

“Our mission is to deliver world-class orthodontic care that’s accessible, affordable, and always expert-led,” said [Dr. Oleg Drut](#), founder and Chief Clinical Officer of Diamond Braces. A top 1% Diamond Plus Invisalign provider, Dr. Drut has led the creation of more than 175,000 confident smiles across over 70 locations throughout New York, New Jersey, Connecticut, and Pennsylvania.

Whether patients are seeking clear ceramic braces, metal braces, or want to understand [how much Invisalign costs](#), Diamond Braces in Old Bridge offers full transparency and personalized recommendations. Treatment plans start as low as \$89/month with insurance, with \$0 down financing options and no hidden fees.

The grand opening of the Diamond Braces office in Old Bridge, New Jersey, is now welcoming new patients for consultations and treatment. As part of its commitment to local communities, the Old Bridge location accepts all major insurance plans—including Medicaid—and continues to make expert orthodontics more accessible than ever before. For families in search of a reliable dental office offering braces, [clear aligners](#), and transparent braces cost guidance, the new Old Bridge location is now open and ready to serve.
