

Dr Teeth Introduces AI-Powered 3D Scanning for Same-Day Crowns

Dr Teeth revolutionises dental care with AI-powered 3D scanning technology, enabling same-day crowns with unmatched precision. Say goodbye to messy impressions and long waits — experience comfort and speed like never before.

Mumbai, Maharashtra Jun 8, 2025 ([Issuewire.com](https://www.issuewire.com)) - In a revolutionary step towards faster and smarter dental care, **Dr. Teeth** proudly announces the launch of its [AI-powered 3D scanning technology](#) for **same-day dental crowns** — offering precision, speed, and patient comfort like never before.

Gone are the days of multiple appointments, messy impressions, and week-long waits. With cutting-edge **AI integration** and an **in-house CAD/CAM lab**, patients at Dr. Teeth can now receive custom-fitted, high-quality dental crowns **in just one visit**.

“Our goal has always been to bring the latest global dental innovations to Mumbai,”

says **Dr. Abhishek Modi**, Founder of Dr. Teeth. “With AI-powered 3D scanning, we can deliver same-day crowns that are not only precise but also aesthetically perfect.”

What Sets Dr. Teeth Apart:

- **AI-Enhanced 3D Intraoral Scanning**

- **Same-Day Crown Fabrication with In-House Lab**
- **No Traditional Impressions – 100% Digital Workflow**
- **Better Fit, Faster Results, and Long-Term Comfort**
- **Personalized Smile Design in One Appointment**

Whether it's a chipped tooth, a damaged crown, or a smile makeover, Dr. Teeth ensures that world-class dental care is faster, smarter, and more accessible than ever before.
