

Draper Elevator Cabs Raising the Bar for Stylish Elevator Interiors in Boston

Holbrook, Massachusetts Jun 24, 2025 ([IssueWire.com](https://www.issuewire.com)) - Draper Elevator Interiors is quietly changing the way buildings in Boston look and feel, starting from the inside of their elevators. Specializing in elevator cab interiors, custom fabrication, and modern lighting, Draper helps property owners give their elevators a fresh, updated look without major construction or disruption.

As one of the go-to names in [Boston elevator interiors](#), Draper Elevator Interiors combines durable materials with clean, modern design. The company offers end-to-end solutions that include ADA-compliant layouts, LED lighting upgrades, and easy-to-install peel-and-stick wall panels—perfect for high-rises, commercial buildings, and everything in between.

“We think elevator interiors should reflect the quality of the building they’re in,” said, CEO of Draper Elevator Interiors. “Whether it’s a sleek office tower or a classic historic property, we design spaces that feel current and functional without overcomplicating the process.”

What Draper Offers:

- Full elevator cab interior design and fabrication
- ADA-compliant layouts and materials
- Long-lasting wall panel options: vinyl, laminate, and architectural film
- Energy-saving LED lighting upgrades
- Branding options and custom aesthetics
- Minimal downtime during installation

Draper’s reputation is built on experience and flexibility. The team has worked with dozens of Boston-area buildings—from corporate offices to hospitals—and understands the unique needs of every project. Each upgrade is designed to match the character of the building and the expectations of its tenants.

FAQs

What services does Draper Elevator Interiors provide?

We handle everything from cab interior design and fabrication to lighting upgrades and ADA enhancements.

Can elevator interiors be refreshed without a full renovation?

Yes. Our peel-and-stick panels and retrofit systems make upgrades quick, clean, and cost-effective.

Are the materials ADA-compliant?

Absolutely. We design every elevator cab to meet or exceed ADA requirements.

How long do projects usually take?

Most take just a few hours or days. We're big on minimizing elevator downtime.

What kinds of properties do you work with?

Commercial buildings, hospitals, residential complexes—you name it. If it has an elevator, we can work with it.
